Software User Manual
Capital Franchise Supply Chain Management System

Prepared by
Team 2 - HCM_CPL_NET_01
FPT Software Academy

1. Introduction

1.1 Purpose of the Manual

This manual provides detailed instructions for installing, configuring, and using the Capital Franchise Supply Chain Management System. It is designed to guide administrators, managers, staff, and customers in efficiently managing all aspects of a beverage franchise network, including supply chain logistics, inventory procurement, online and offline sales activities, promotions, and comprehensive revenue reporting.

1.2 Intended Audience

Administrators: Manage the entire system, configure global shift rules, products, and categories. They oversee franchise chains, suppliers, raw materials, users/roles, and handle financial operations (wallets and withdrawals).

Managers: Oversee specific store operations, including order management, store shift scheduling, and local inventory. They manage branch staff and have view access to products and customer data.

Staff Members: Handle customer orders and manage personal schedules. They can apply for shifts from the pool, track their own shifts, and submit shift exchange requests.

Customers: Browse and purchase products, manage personal wallets and promotions. They can track order history and submit franchise applications directly through the web.

1.3 System Requirements

Server Requirements

- Operating System: Ubuntu 20.04+ or Windows Server 2019+
- Processor: Intel i5 or higher
- RAM: 2GB minimum
- Storage: 500MB free disk space
- Database: PostgreSQL
- Backend: .NET 8.0 Runtime

Client Requirements

- Device: PC, Laptop
- Browser: Latest version of Chrome, Edge, or Firefox
- Internet Connection: Stable broadband recommended
- Screen Resolution: Minimum 1366x768

1.4 Conventions Used

1.4.1 Deployment

The deployment of the system (including server setup, database configuration, and runtime environment) is documented separately in the Deployment Guide – Movie Theater Management System.

Please refer to that document for detailed installation and deployment steps

1.4.2 Accessing the System

Once the system has been successfully deployed, users can access it through:

- URL: https://cahongban.site
- Account: Credentials provided by the system administrator
- Authentication: Login with email and password, or Single Sign-On (if configured)
- Browser: Ensure cookies and JavaScript are enabled for full functionality

1.5 Conventions Used

Bold = Buttons, menus, or important terms

Italic = Notes or tips

`Monospace` = Commands or code snippets

2. Getting Started

2.1 Overview

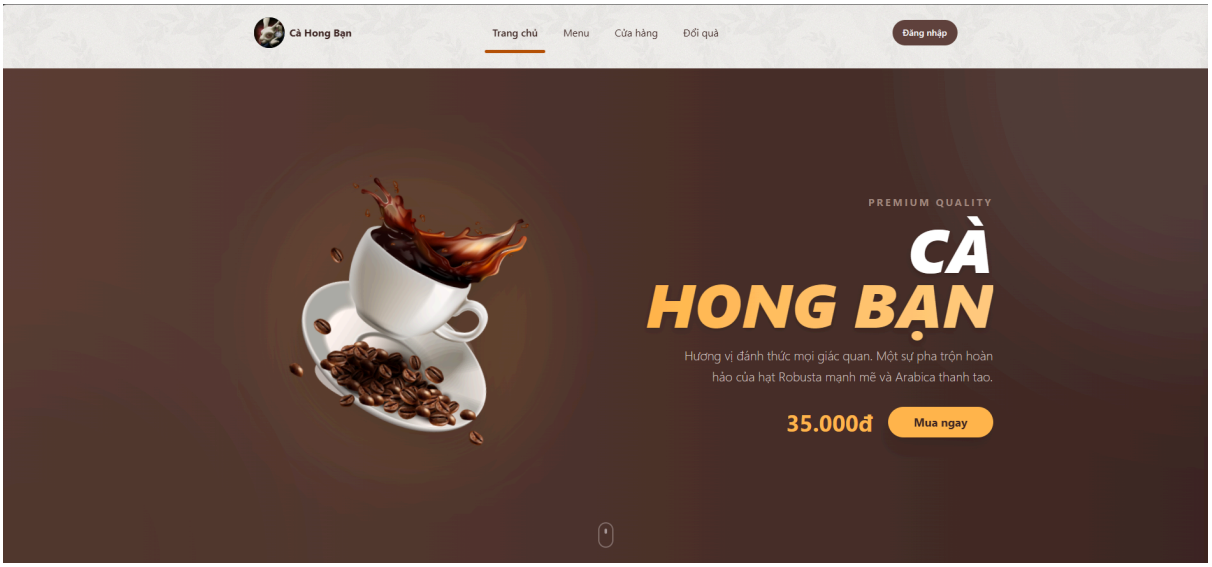

The Capital Franchise Supply Chain Management System web application allows administrators, managers, staff, and customers to interact with the franchise network seamlessly. Customers can purchase beverages, manage personal wallets, and submit franchise applications online, while staff and admins can manage supply chains, inventory, shift schedules, promotions, and revenue reporting.

2.2 Installation & Accessing the Web App

Open a supported web browser (Chrome, Edge, Firefox).

Enter the application URL: `https://www.cahongban.site`

You will be directed to the Home Screen (*[Hình 2.1: Home Screen]*).

2.3 Browser Compatibility

The system is tested and supported on the following browsers:

- Google Chrome (latest version)
- Microsoft Edge (latest version)

2.4 First-Time Setup

For Admins:

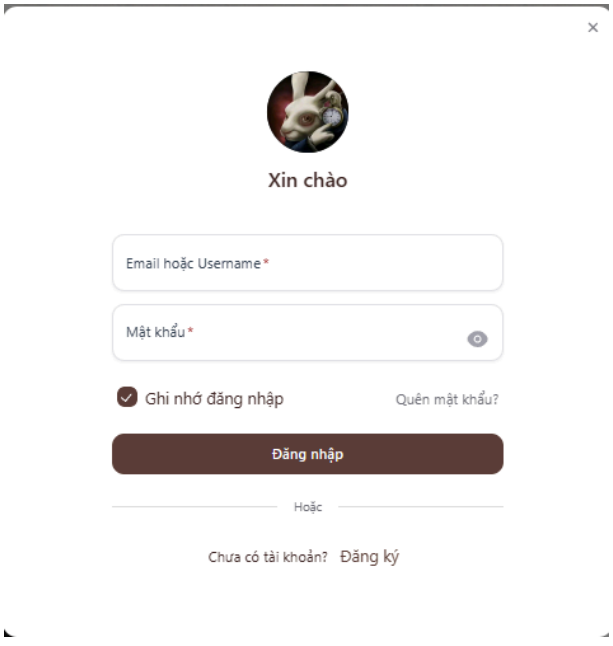

1. Log in using the default admin credentials provided.
2. Configure product categories and types under the Category Module
3. Create and manage initial product listings under the Product Module.

For Staff:

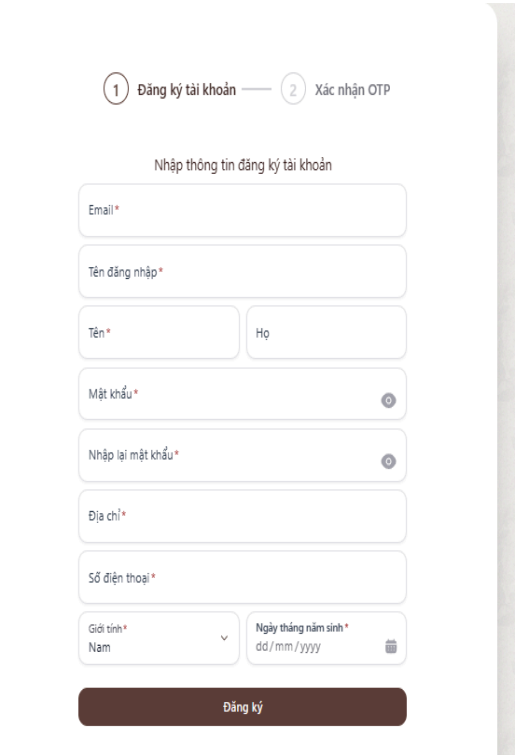

1. Obtain login credentials from the admin.
2. Familiarize with the Products and Orders modules.
3. Practice processing sample beverage orders before serving real customers.

For Customers:

1. Register for a new account under Sign Up (*[Hình 2.4: Customer Registration Form]*).
2. Verify your email address.
3. Browse available movies and purchase tickets.

3. User Roles & Permissions

3.1 Admin

- Full access to all modules.
- Can manage users, roles, permissions, and financial operations (wallets and withdrawals).
- Can configure global shift rules, product categories, products, and promotions.
- Can oversee the entire franchise chain, suppliers, and raw materials.
- Responsible for global system maintenance and high-level revenue oversight.

3.2 Manager

- Access limited to assigned store operations and inventory modules.
- Can manage specific store orders, branch staff, and local inventory levels.
- Can configure and manage shift schedules for their specific store.
- Can view product catalogs, categories, and customer data within their branch.
- Cannot change global system settings or manage other franchise locations.

3.3 Staff

- Access limited to Order Management and Shift modules.
- Can process customer orders and view available shift pools to apply for work.
- Can track personal shift schedules and submit shift exchange requests.
- Can view customer information for service purposes.
- Cannot access inventory management, revenue reports, or system configurations.

3.4 Customer

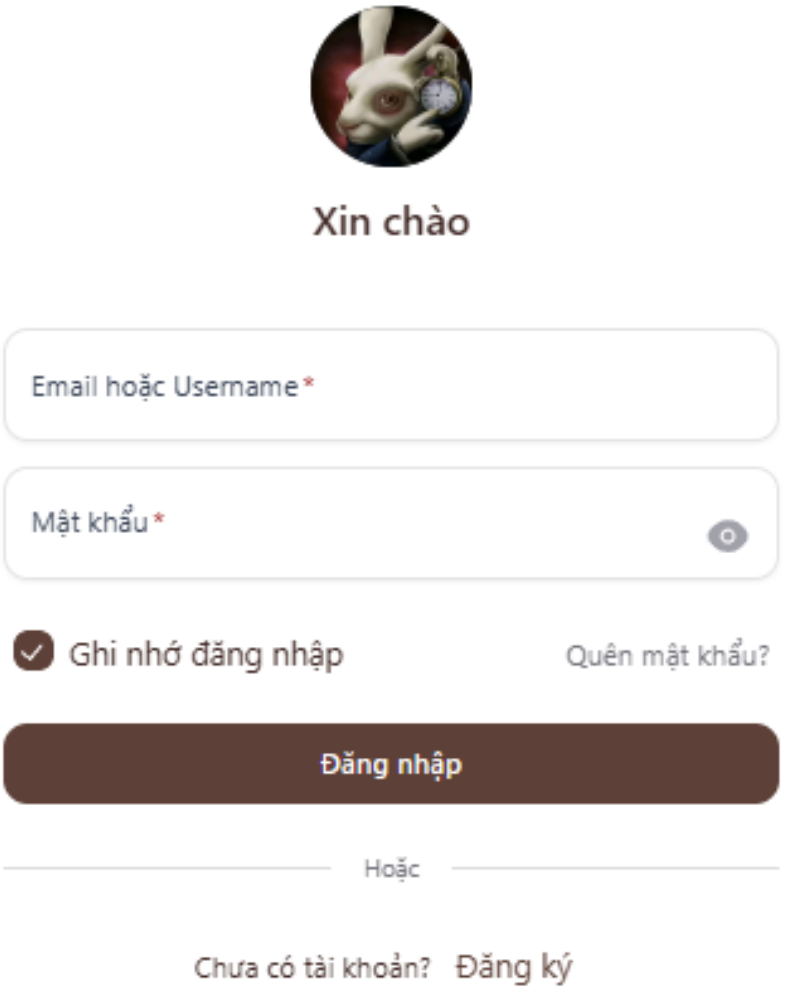

- Can register, log in, and manage personal profiles and wallets.
- Can browse products, purchase beverages, and use personal promotions.
- Can track order history and submit franchise applications directly.
- Cannot access any internal staff, manager, or admin management features.

4. System Interface Overview

4.1 Login Screen

When visiting the web application, users are greeted with the login interface.

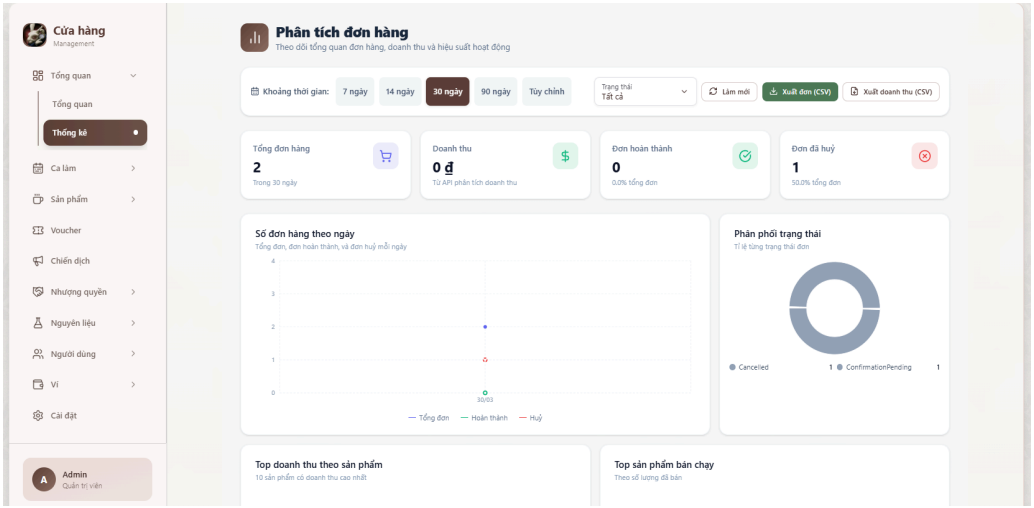

- Fields: Email / Username, Password
- Options: Login, Forgot Password, Sign Up (*for customers only*)
- Security: OTP sent by email may be enabled for protection.
- [Hình 4.1: Login Screen]

4.2 Main Dashboard

After logging in, the Dashboard provides an overview of the system based on the user role:

- Admin View: Displays revenue summary, total orders, order status (completed, cancelled), overall performance, and top-selling products.
- Staff View: Shows today's orders, supports quick order processing, updates order status (brewing, completed), and manages work shifts.
- Customer View:Presents featured drinks, recommended items, order history, and loyalty points.
- [Hình 4.2: Admin Dashboard Example]

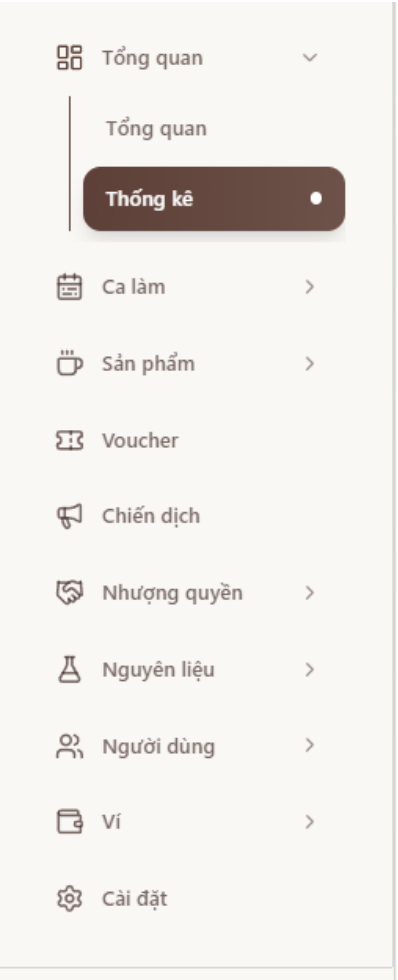

4.3 Navigation Menu

The left-hand navigation bar (or top menu, depending on screen size) provides access to modules:

- Dashboard – Overview of orders, revenue, and system performance
- Orders – Manage customer orders and update order status
- Products – Manage drinks, food items, and pricing
- Categories – Organize menu items into categories

- Inventory – Track ingredients and stock levels
- Promotions – Create and manage discounts or special offers
- Customers – Manage customer information and loyalty points
- Staff & Shifts – Manage employees and work schedules
- Reports – View and export revenue and sales reports
- Settings – Configure system preferences
    -
    - [Hình 4.3: Navigation Menu Layout]

4.4 Notification Center

Displays system alerts such as:

- New orders
- Canceled orders
- Low stock ingredients
- Payment failures

Notifications appear as a bell icon in the top-right corner.

[Hình 4.4: Notification Center Popup]

5. Auth & User Module

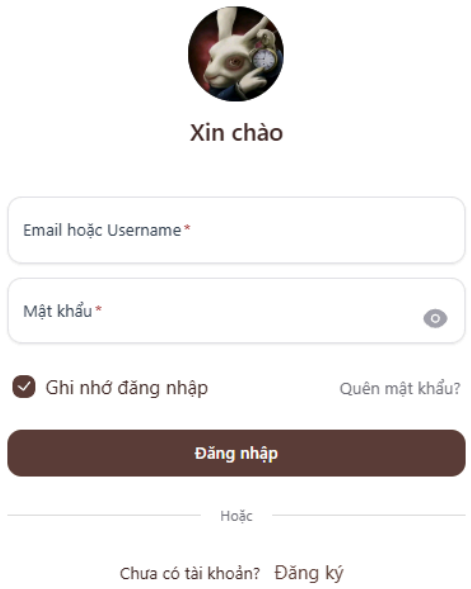

5.1 Login / Logout

Login Steps:

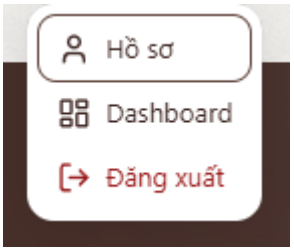

1. Navigate to the login page.
2. Enter your Email/Username and Password.
3. Click Login.
4. If credentials are correct, you will be redirected to the Dashboard.

Log Out Steps:

1. Click the profile icon in the top-right corner.
2. Select Logout.
3. You will be redirected back to the login screen.
   [Hình 5.1: Login Form]

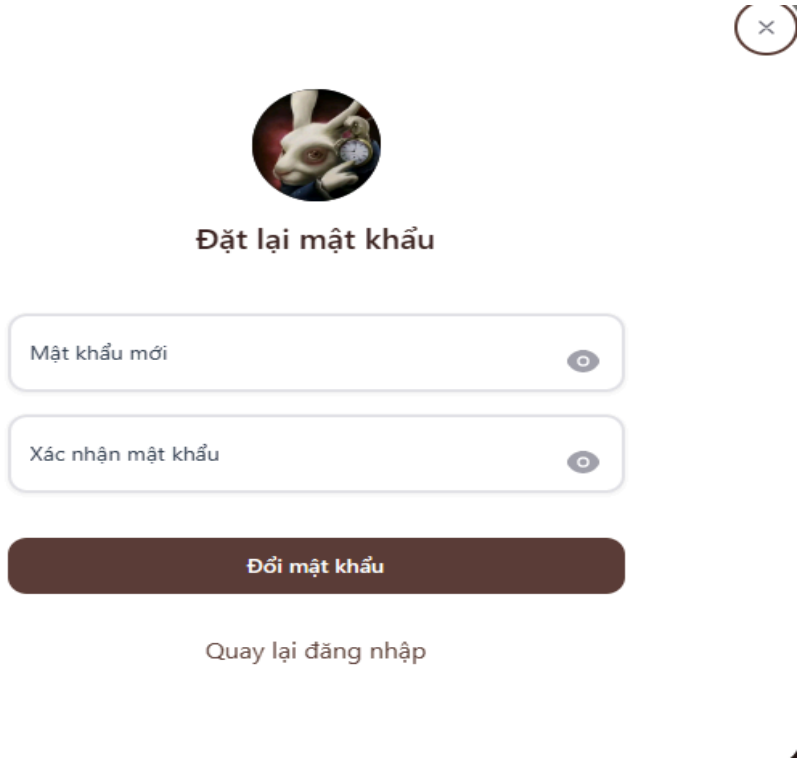

[Hình 5.2: Logout Dropdown]

5.2 Password Reset

1. Click Forgot Password on the login page.
2. Enter your registered email.
3. Check your inbox for a reset link.
4. Follow the instructions to set a new password.

- [Hình 5.3: Password Reset Form]

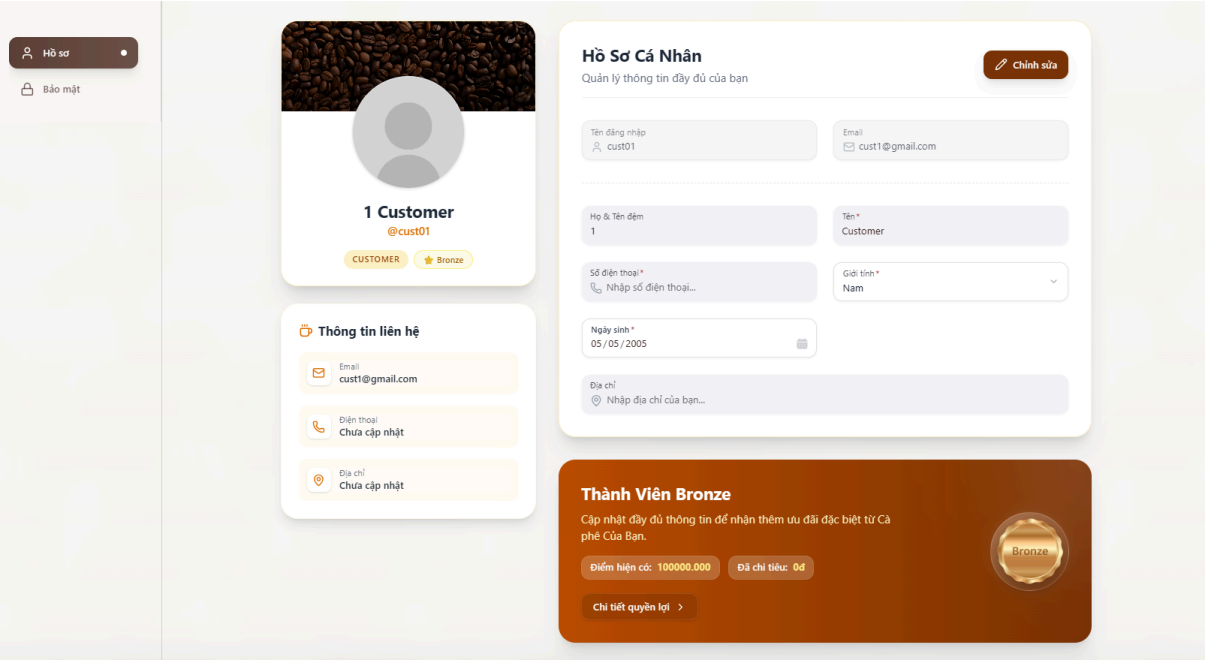

5.3 User Profile Management

View and edit Full Name, Phone Number, Gender, Date of birth, Address, Profile Picture.

Change password from Profile > Security.

- [Hình 5.4: User Profile Page]

5.4 Role-Based Access Control

Admin: Full access to all modules, including global configurations (shift rules, products), franchise/supplier management, and financial operations (wallets, withdrawals).

Manager: Limited to store-specific operations: order management, branch inventory, staff oversight, and local shift scheduling.

Staff: Limited to processing orders, viewing shift pools, managing personal schedules, and requesting shift exchanges.

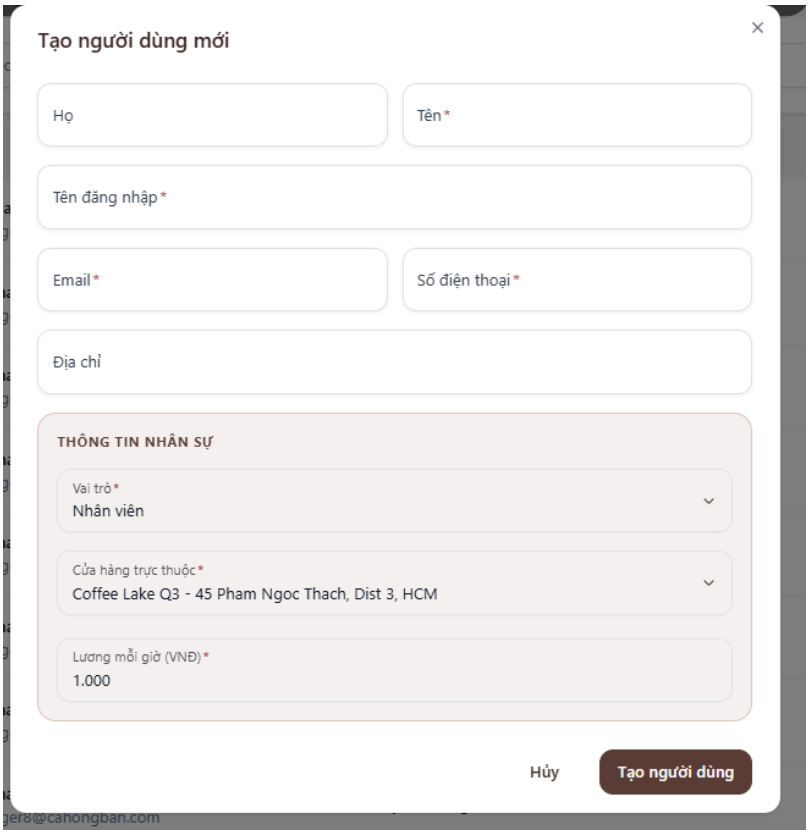

Customer: Limited to browsing/purchasing products, managing personal wallets/promotions, and submitting franchise applications.

6. Customer & Staff Module

6.1 Managing Staff Accounts

1. Go to Staff Management under Settings.
2. Click Add Staff.
3. Set Username, Email, PhoneNumber, Address, Role, and Permissions.
4. Save and share credentials with the staff member.

- [Hình 6.2: Add Staff Account]

6.2 Viewing Customer History

Search by Name, Phone Number, or Membership ID.

View past order, loyalty points, and refunds.

[Hình 6.3: Customer Profile with History]

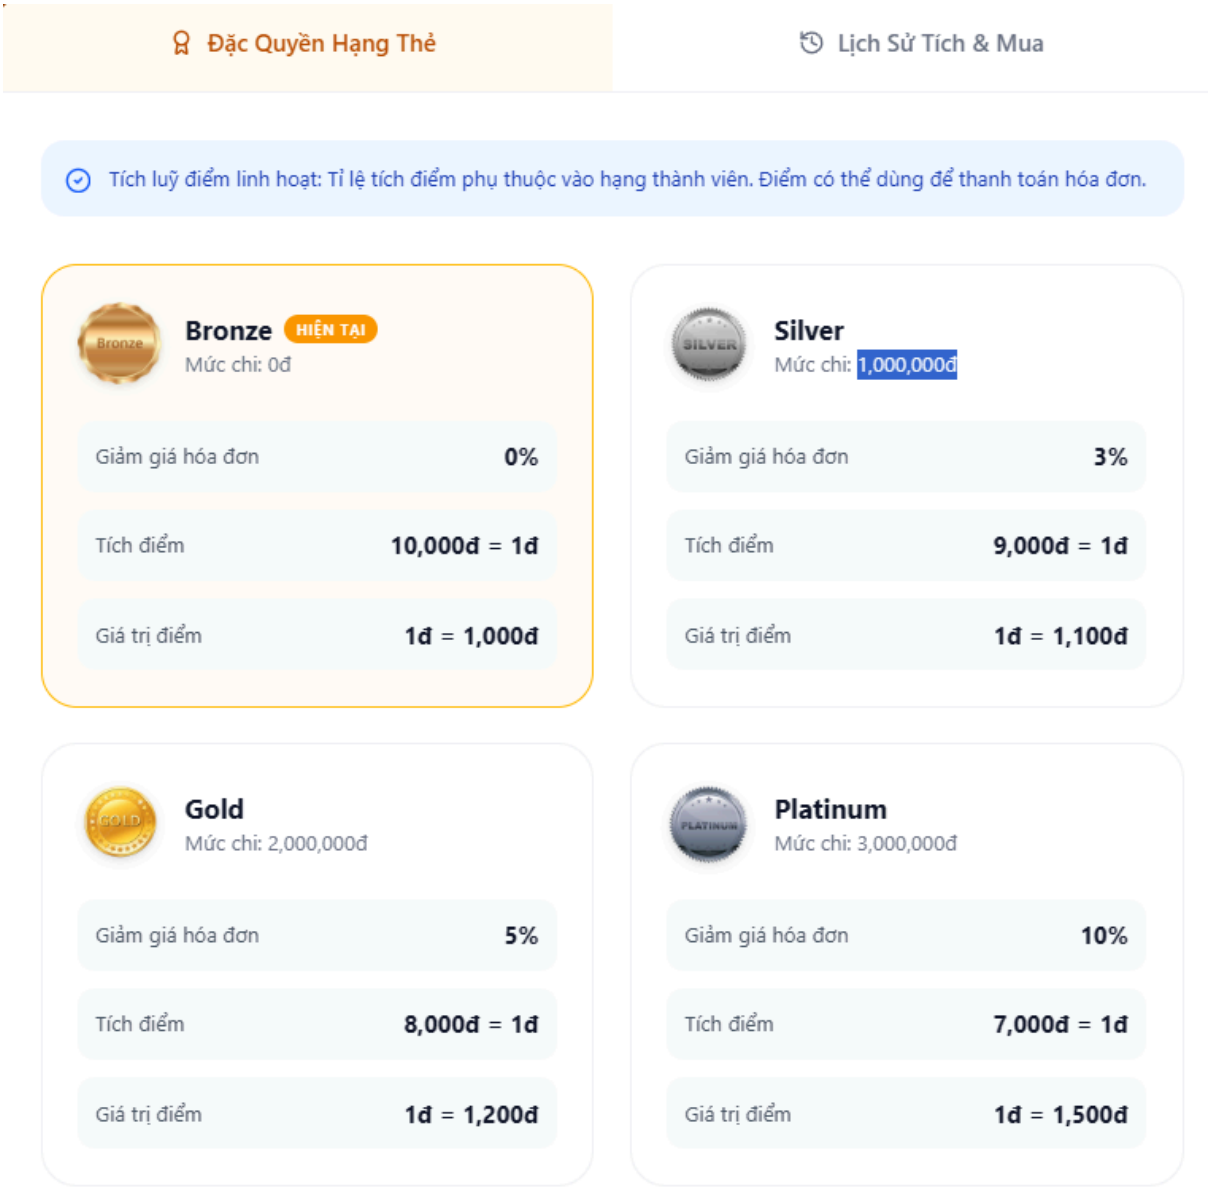

6.4 Membership & Loyalty Program

Customers earn Points for every order purchase.

Points can be redeemed for discounts or vouchers.
Membership levels:

- Bronzer: 0 - 999.000 VND
- Silver: 1.000.000 - 1.999.999 VND
- Gold: 2.000.000 - 4.999.999 VND
- Platinum: 5.000.000+ VND

[Hình 6.4: Loyalty Program Dashboard]

7. Product & Ingredient Module

7.1 Adding New Product

1. Navigate to Product> Add Product.

   Product Name

Category (Coffee, Tea, Juice, Food, etc.)

Price

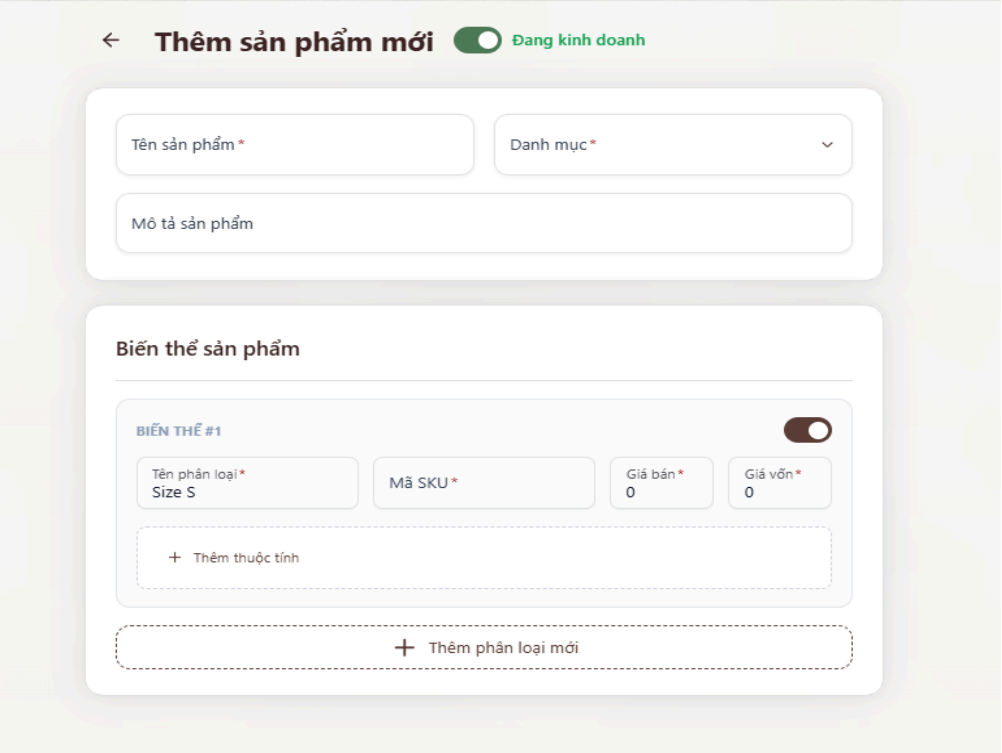

Size/Variant (S, M, L – if applicable)

Availability Status

Image (upload)

Description

2. Save movie details.
   [Hình 7.1: Add Product Form]

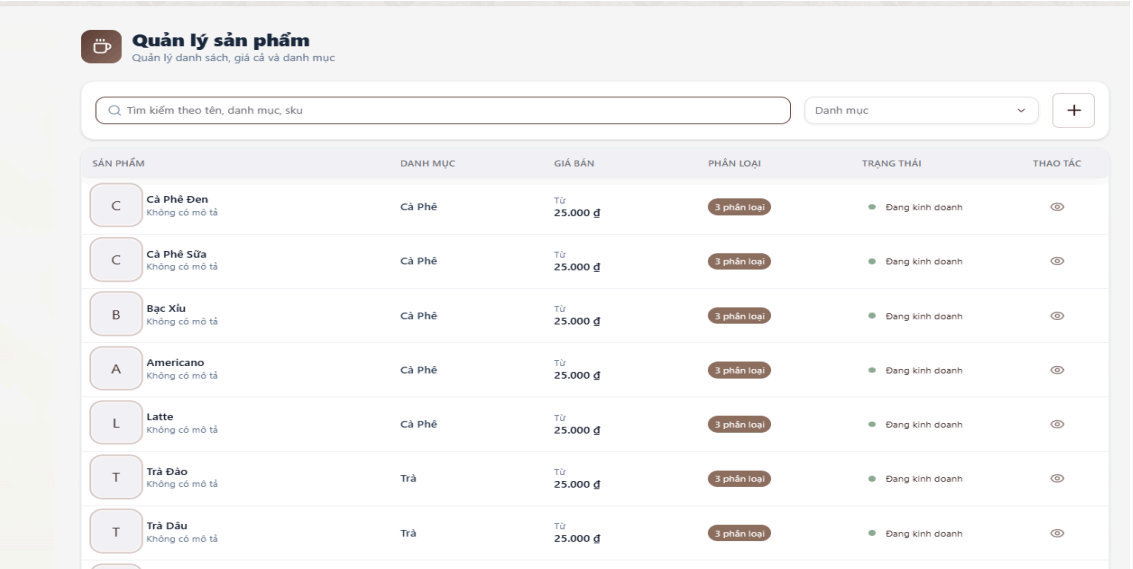

7.2 Editing / Archiving Product

Select a product from the list.

Click eye icon to update details.

Click Archive to remove it from the active schedule.

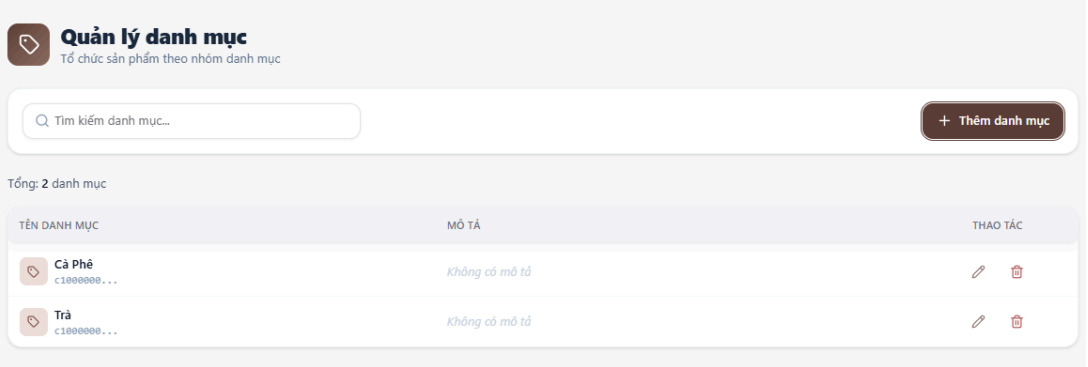

[Hình 7.2: Product List Management]

7.3 Product Categorization (Type, etc.)

Products can be filtered by category

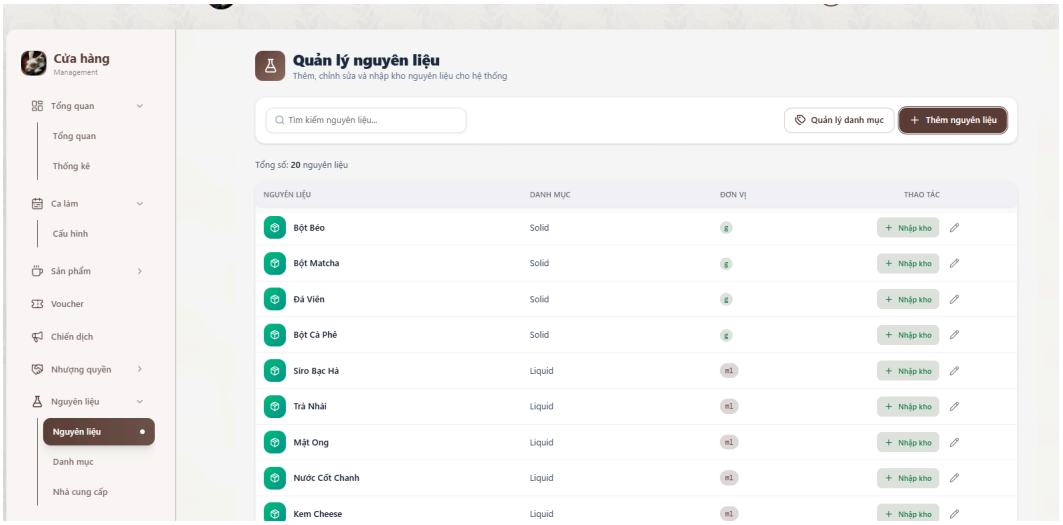

[Hình 7.3: Product Filtering Options]

7.4 Ingredient

This module allows administrators to manage and track all ingredients used in the coffee shop.

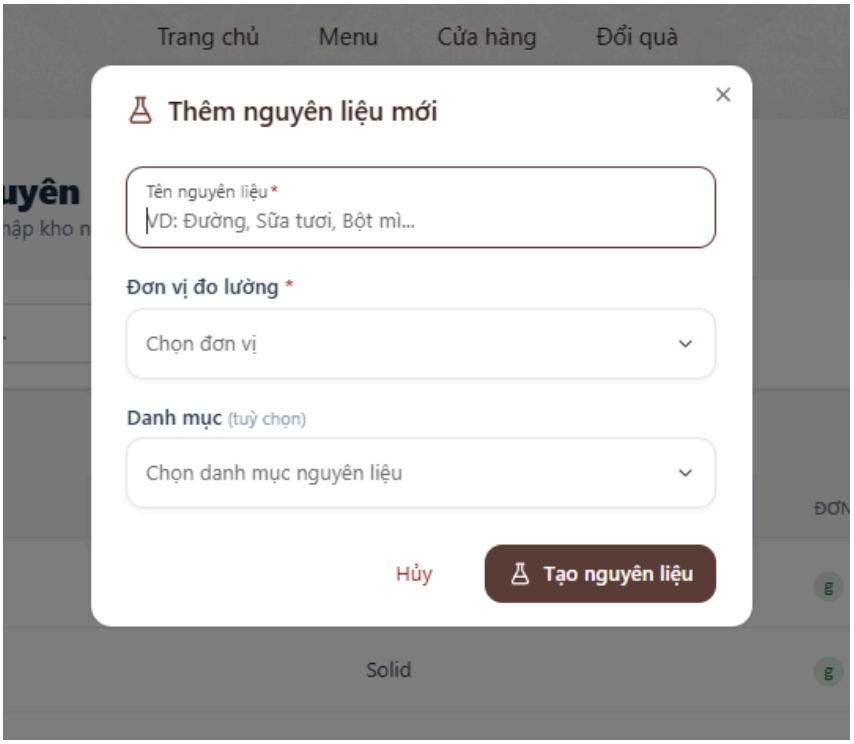

[Hình 7.4: Ingredient List]

7.5 Ingredient Add

Create new ingredients such as name, measurement unit, category.

[Hình 7.5: Ingredient Add]

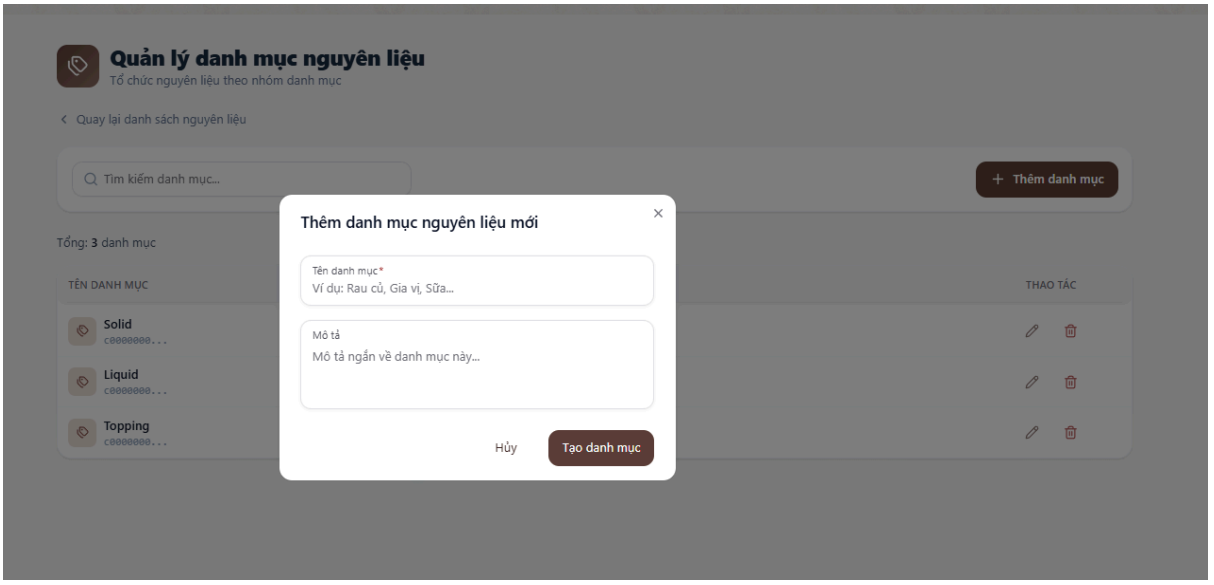

7.6 Ingredient Category

1. **Add category:** Create new ingredient categories (e.g., Coffee Beans, Dairy, Syrups, Tea Leaves).
2. **Edit category:** Update category names or descriptions when needed.

3. **Delete category:** Remove unused or outdated categories from the system.
4. **Assign ingredients:** Link ingredients to specific categories for better organization and tracking.

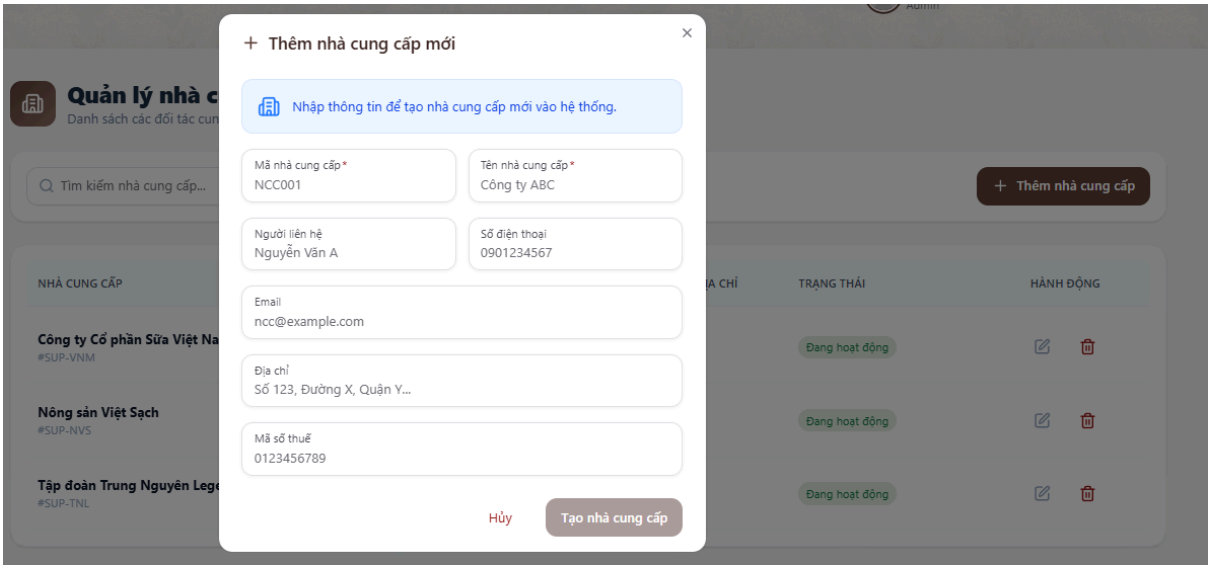

[Hình 7.6: Category Add]

7.7 Supplier Management

1. **Add supplier:** Create new supplier records with details such as name, phone number, address, and email.
2. **Edit supplier:** Update supplier information when needed.
3. **Delete supplier:** Remove inactive or unused suppliers from the system.
4. **View supplier list:** Display all suppliers and their details.
5. **Link ingredients:** Assign suppliers to specific ingredients for better tracking and restocking.

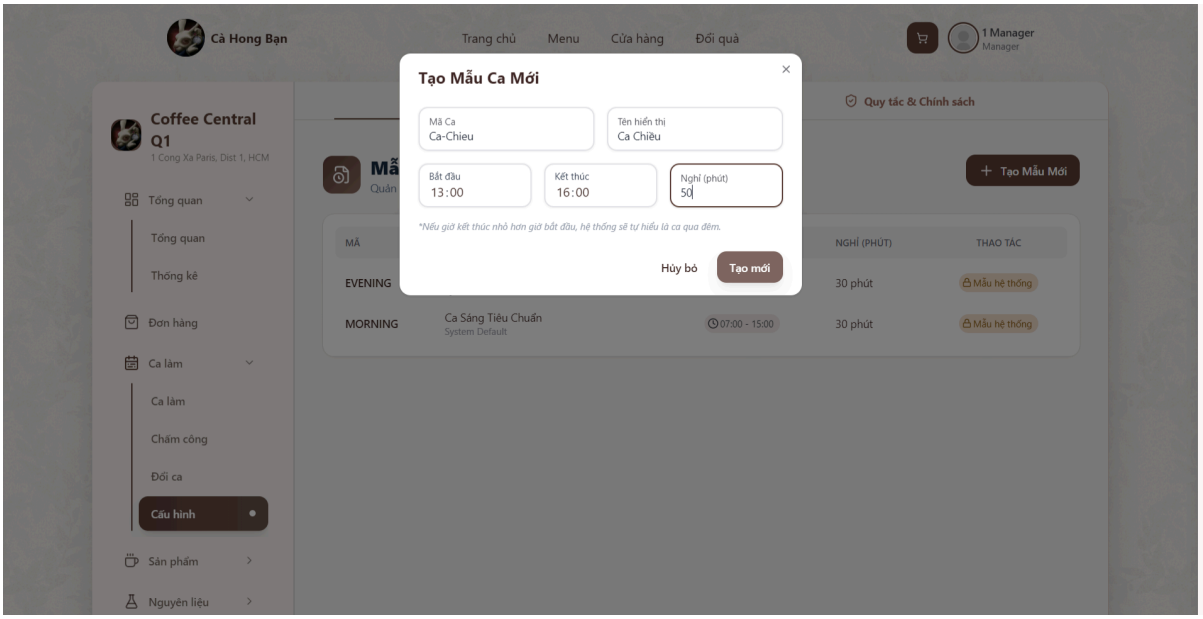

[Hình 7.7: Supplier Add]

8. Shift Management

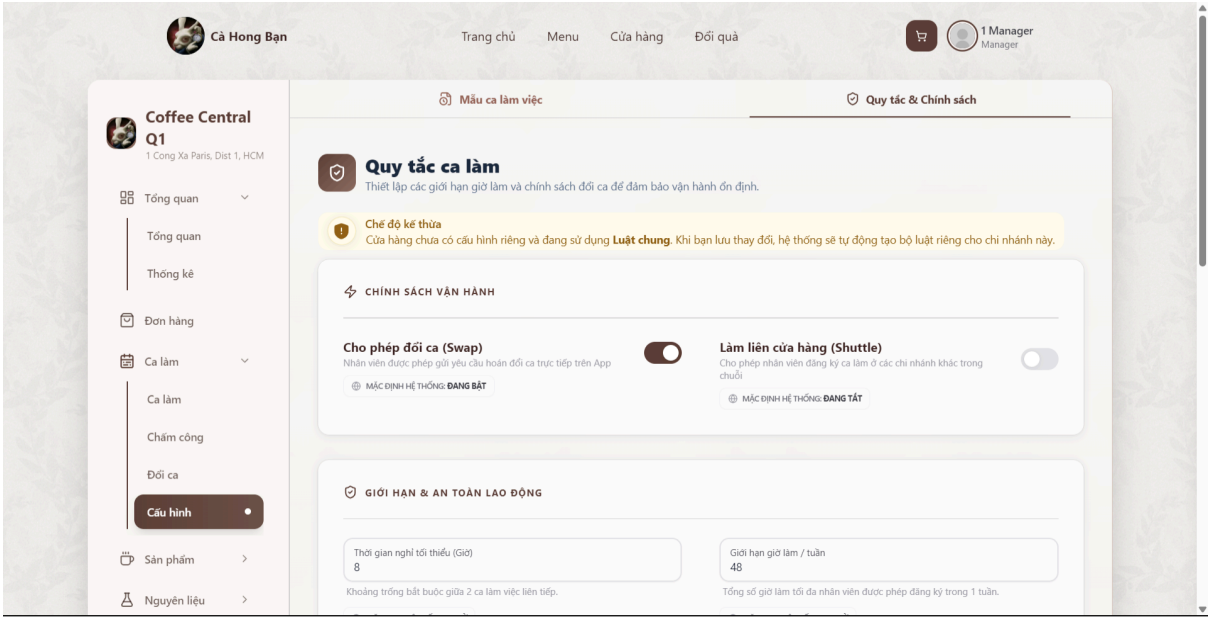

8.1 Configuring Shift Templates

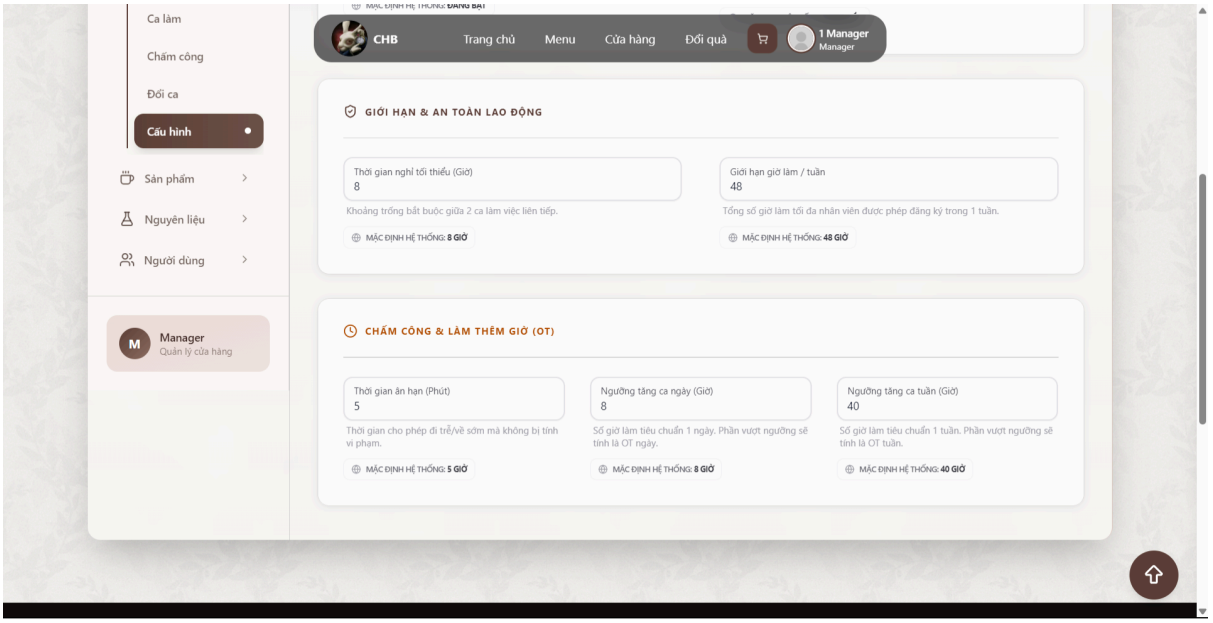

1. Go to **Shift Management**.
2. Select the Configuration (Cấu hình) menu.
3. On the Shift Templates (Mẫu ca làm việc) tab, click + Create New Template (+ Tạo Mẫu Mới) or choose an existing template to edit.
4. Define shift details such as shift code, shift name, start time, end time, and break duration.
5. Click Save to confirm configuration.

8.2 Configuring Shift Rules & Policies

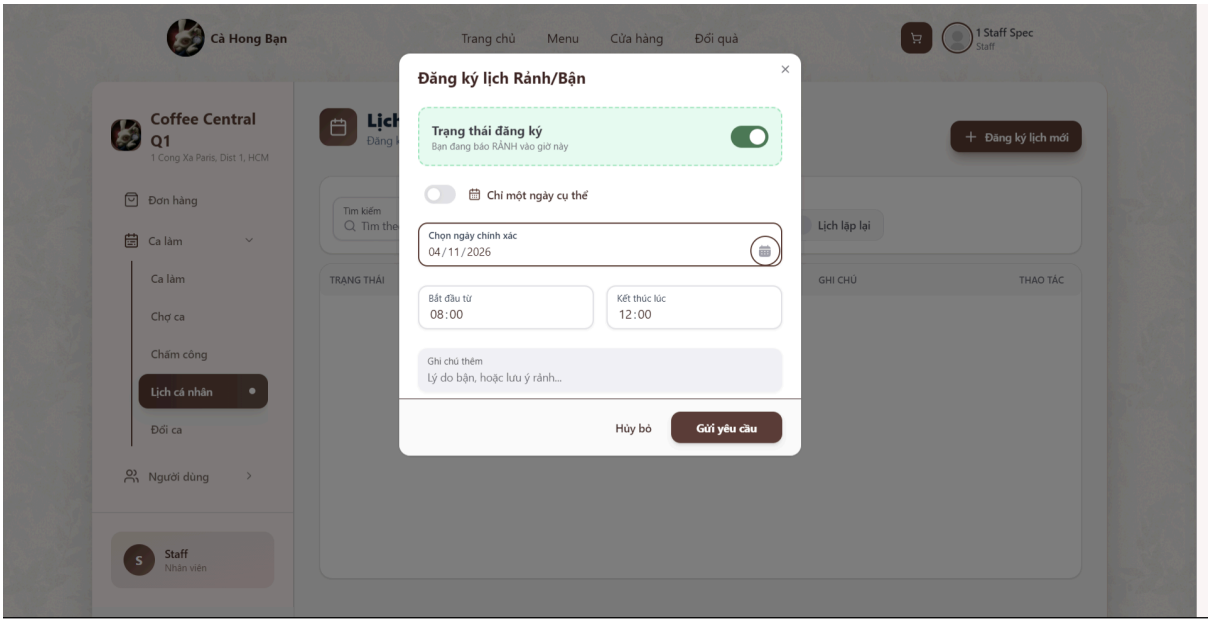

1. Go to **Shift Management**.
2. Select the Configuration (Cấu hình) menu.
3. Switch to the Rules & Policies (Quy tắc & Chính sách) tab.
4. Configure business rules such as grace periods for check-in/check-out (e.g., maximum early check-in, late check-out allowed).
5. Define the minimum or maximum work hours constraints.
6. Click Save to apply the new rules.

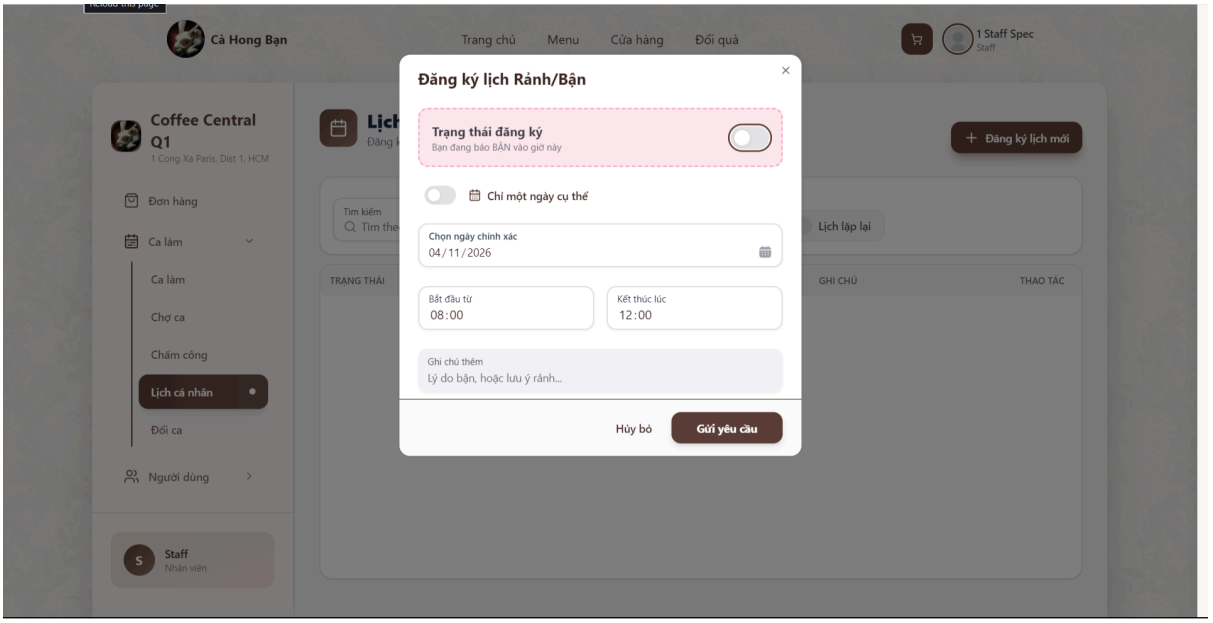

8.3 Submitting Staff Availability (For Staff)

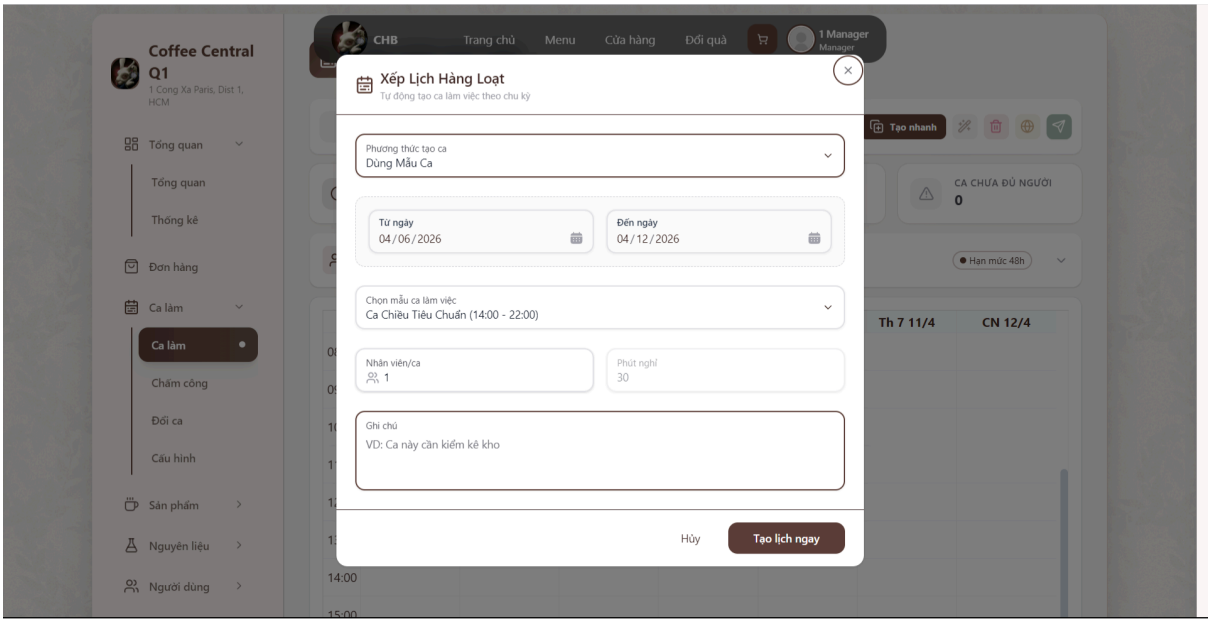

1. Go to My Schedule or Shift Availability.
2. Select the upcoming week or calendar month.
3. Mark specific days and time slots as Available or Unavailable to work so the system can schedule automatically later.
4. Click Submit to send the availability data to the software.

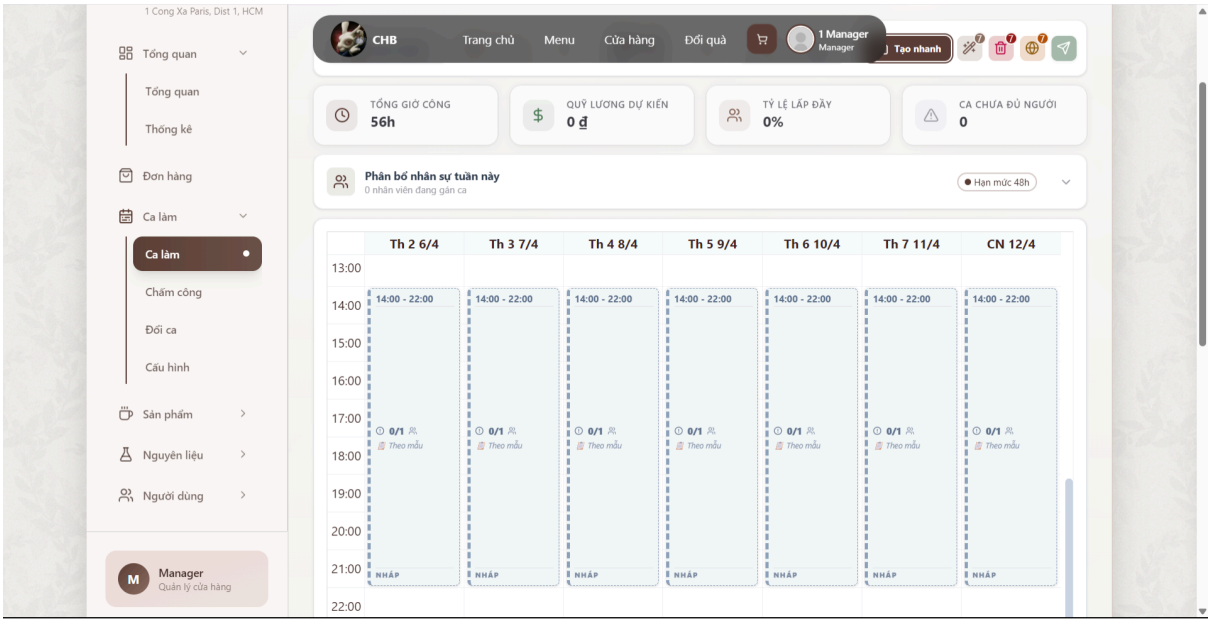

8.4 Scheduling and Assigning Shifts

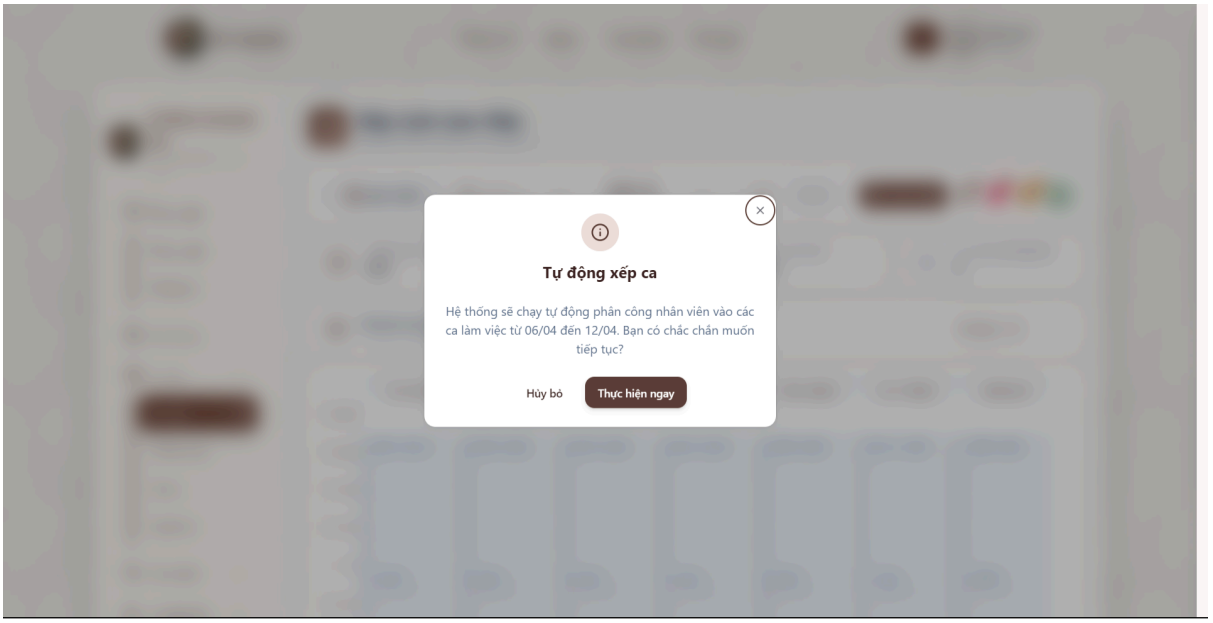

1. Go to Shift Management and open the Shift Schedule/Calendar.
2. Select a specific day or week.
3. Choose to Create Shift manually or Bulk Create from Template.
4. If using a template, select the predefined shift and specify the number of staff required.
5. Search and assign available staff to the shift (optional).
6. Click Save to add the draft shifts to the schedule.

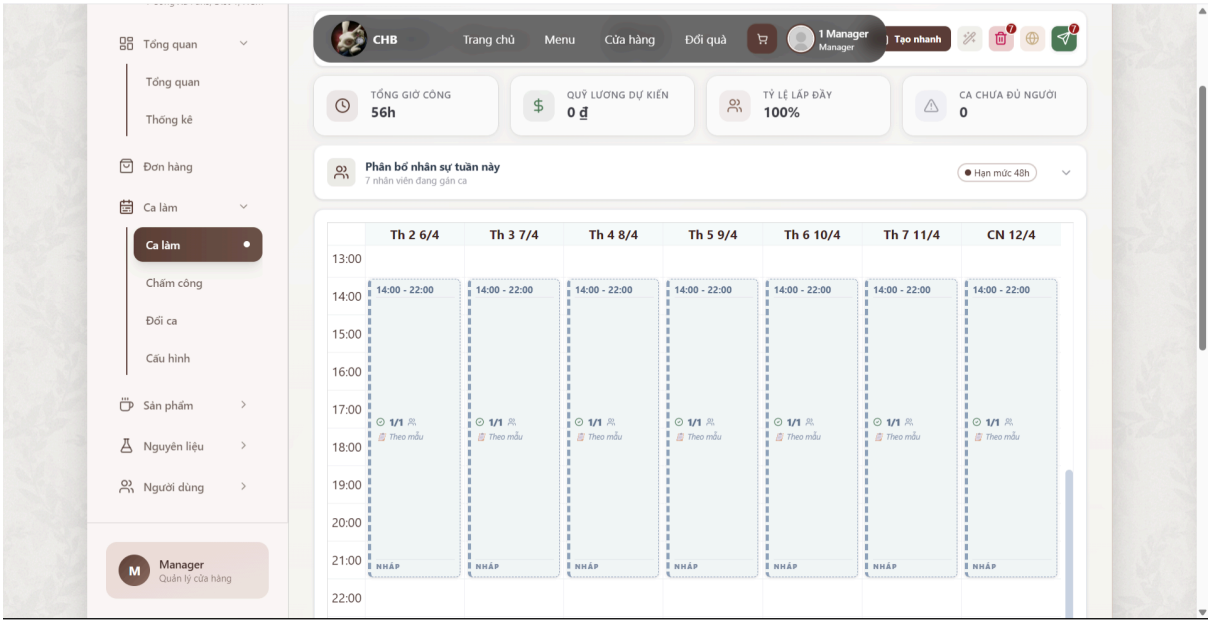

8.5 Auto-Filling Shifts (Smart Scheduling)

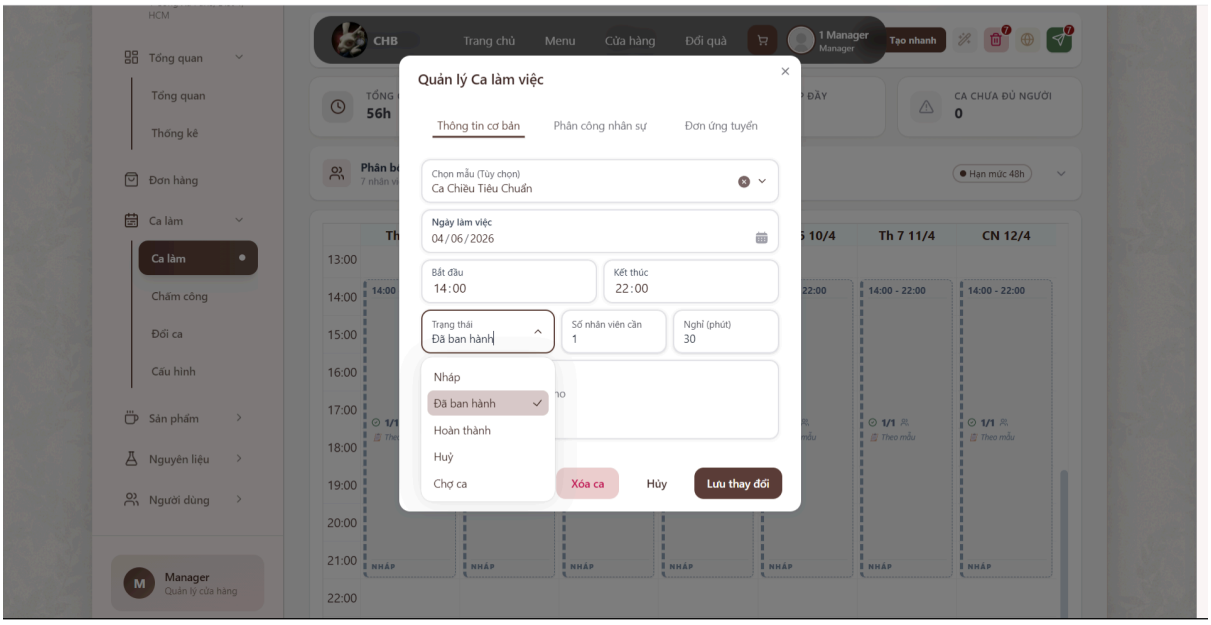

1. Go to the Shift Schedule/Calendar where draft shifts exist.
2. Click the Auto-Fill / Auto-Schedule button.
3. The system will automatically run an algorithm to assign available staff to empty shifts based on criteria (skills, availability, work hour limits).
4. Review the auto-generated shift assignments.
5. Make manual adjustments if necessary and Save.

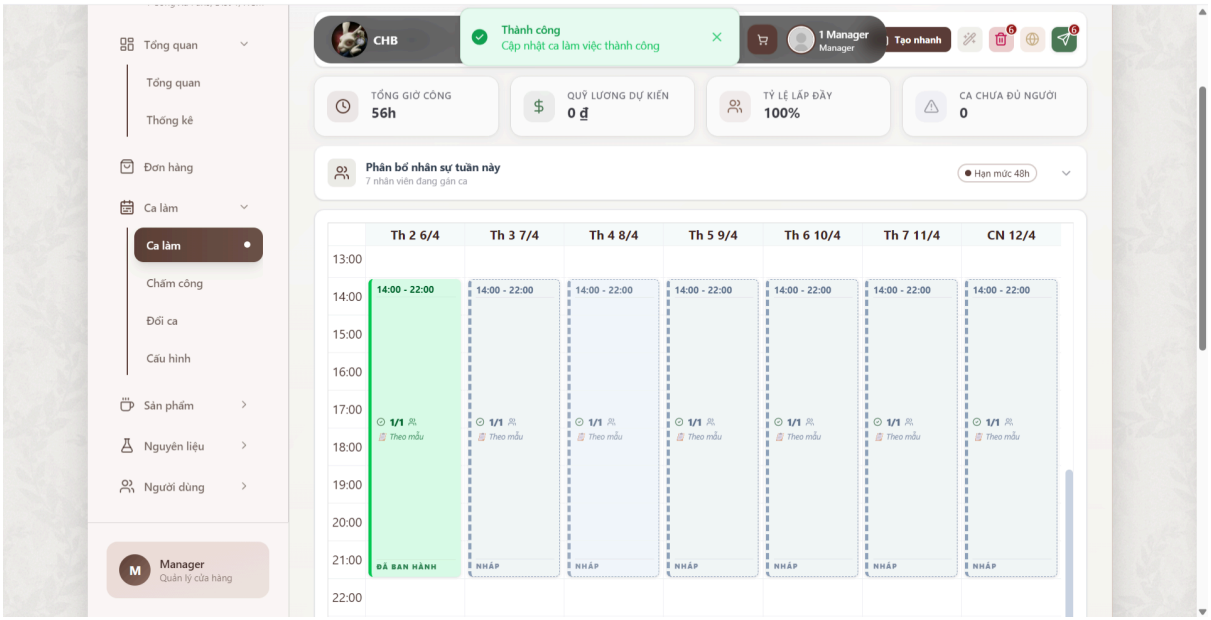

8.6 Publishing & Opening Shifts

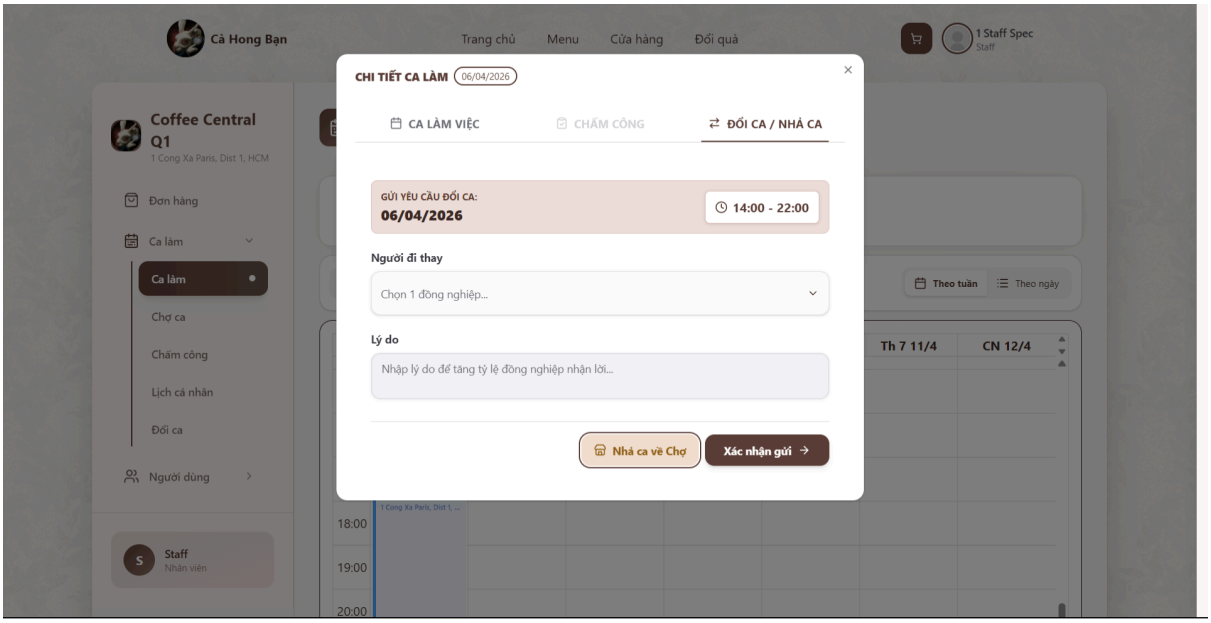

1. Go to the Shift Schedule.
2. Select the draft shifts you want to finalize.
3. Click Publish Shifts to notify assigned staff.
4. For remaining unassigned shifts, select them and click Open Shifts to allow open applications.
5. The system will notify relevant employees.

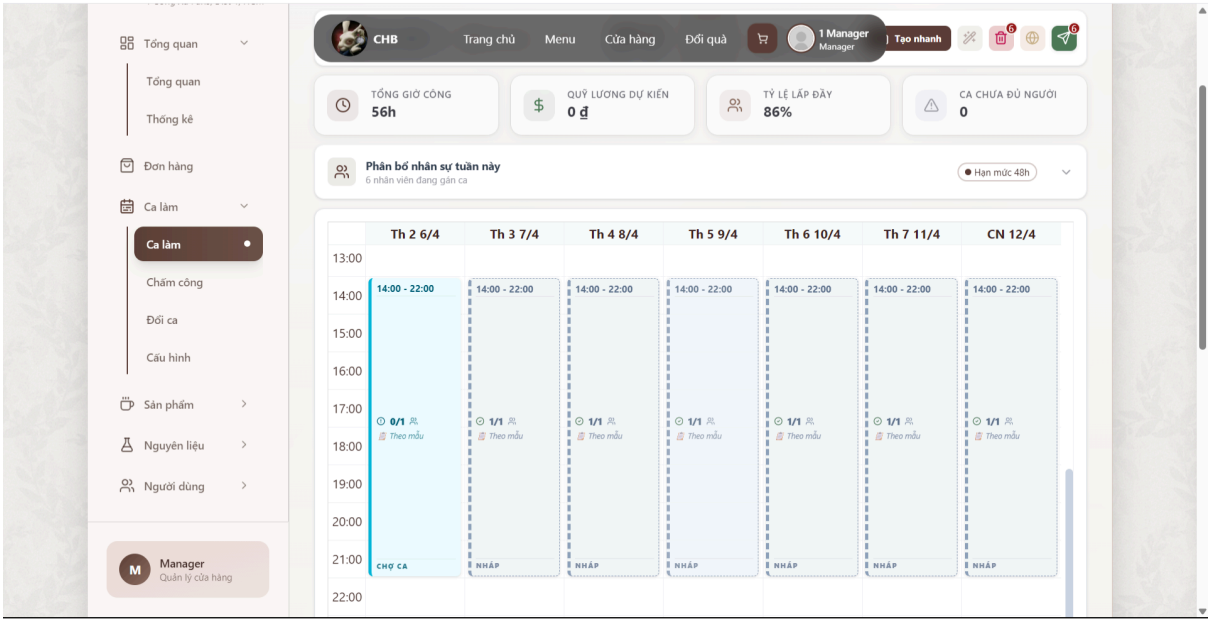

8.7 Releasing an Assigned Shift (For Staff)

1. Go to My Schedule or My Shifts.
2. Select an assigned upcoming work shift that you can not attend.
3. Click Release Shift (Nhả ca / Trả ca).
4. Input the reason for releasing the shift.
5. Click Confirm. The shift will be returned to the open pool for other staff to apply, pending manager approval.

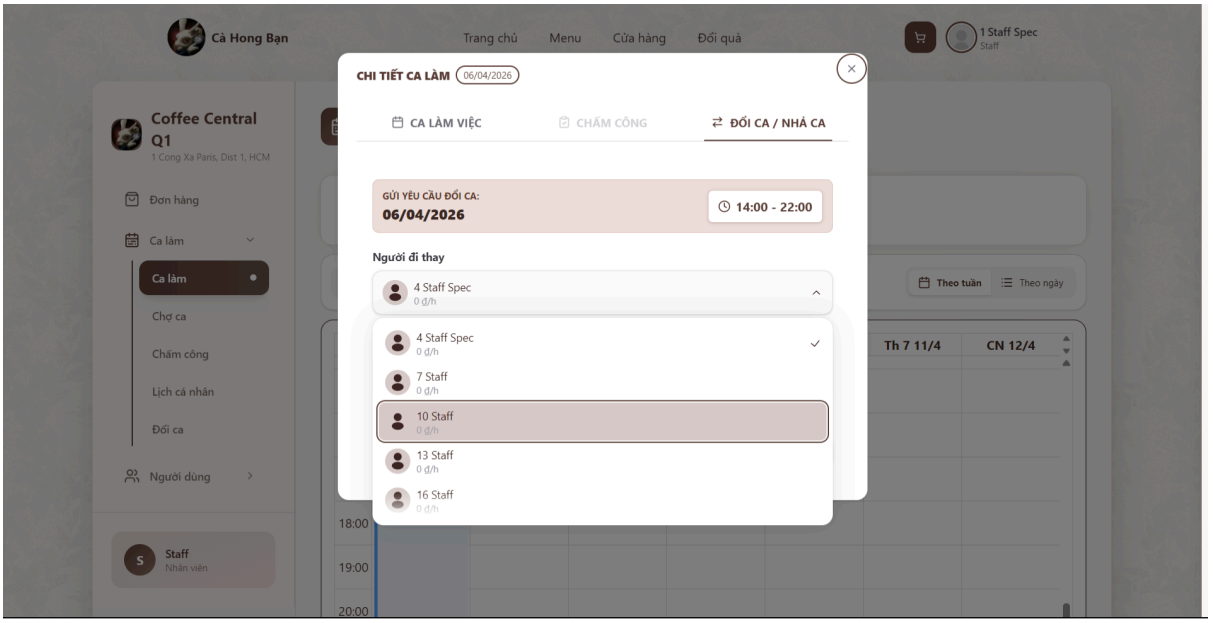

The shift in 6/4 will be returned to the open pool for other staff to apply

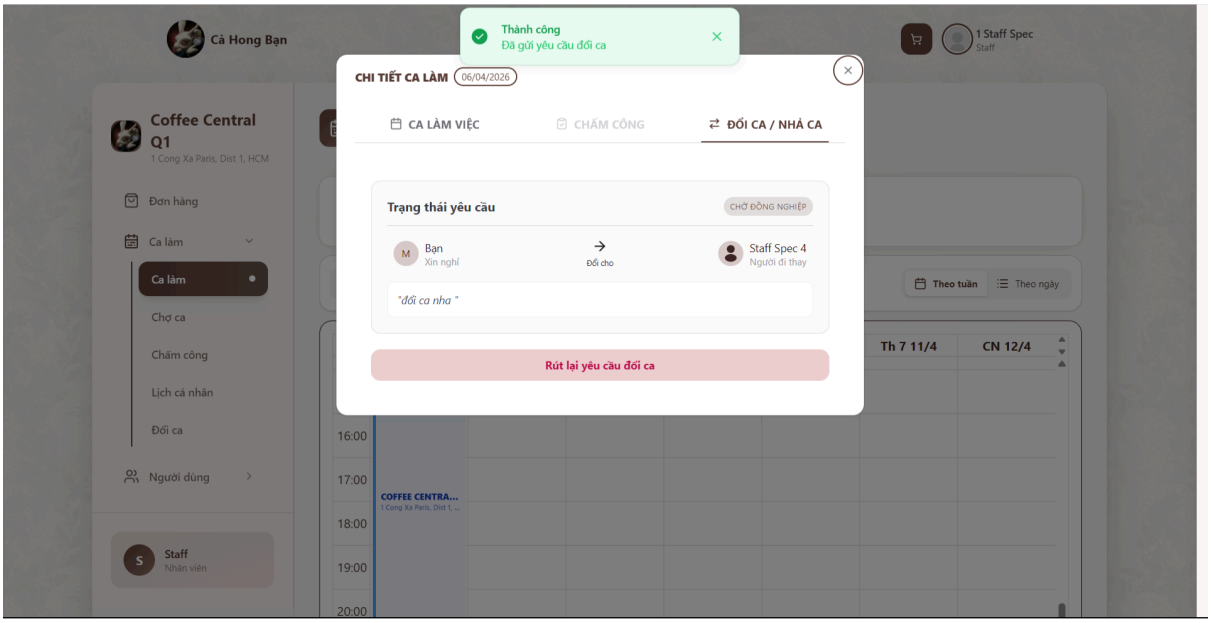

8.8 Requesting a Shift Swap (For Staff)

1. Go to My Schedule.
2. Select an assigned upcoming shift that you want to swap with someone else.
3. Click Swap Shift (Đổi ca).
4. Search your store list and select a target staff member who is eligible to take the shift.
5. Enter a reason for the swap request (optional).
6. Click Submit to send the request (or click Cancel Swap to revoke it later if needed).

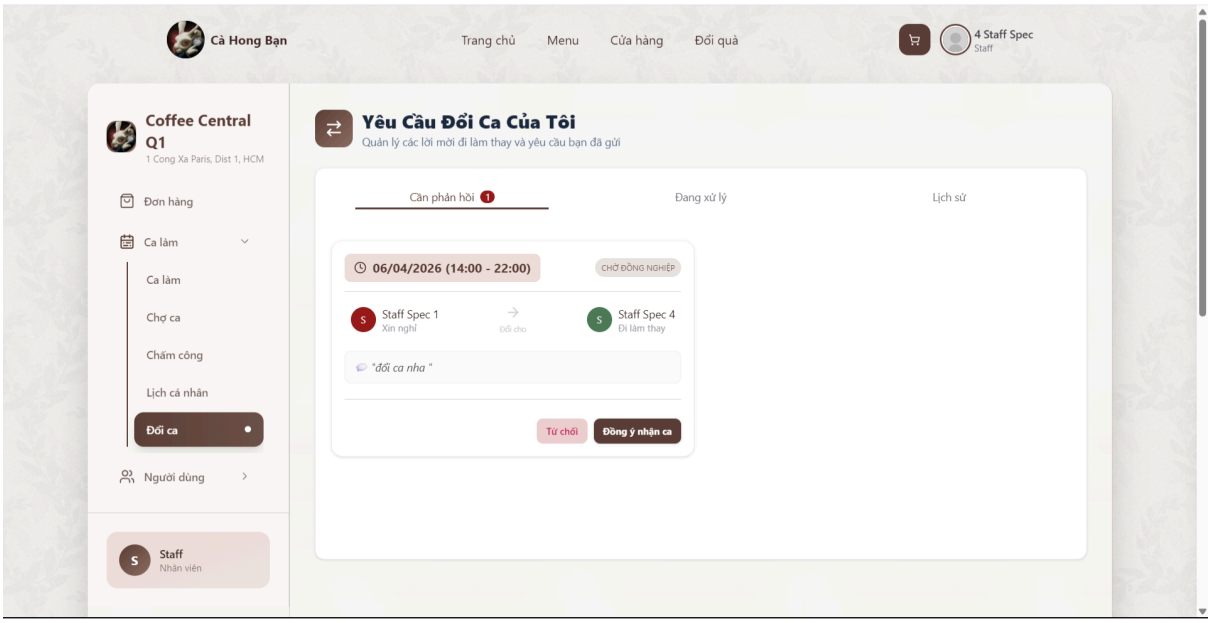

Send Request successfully

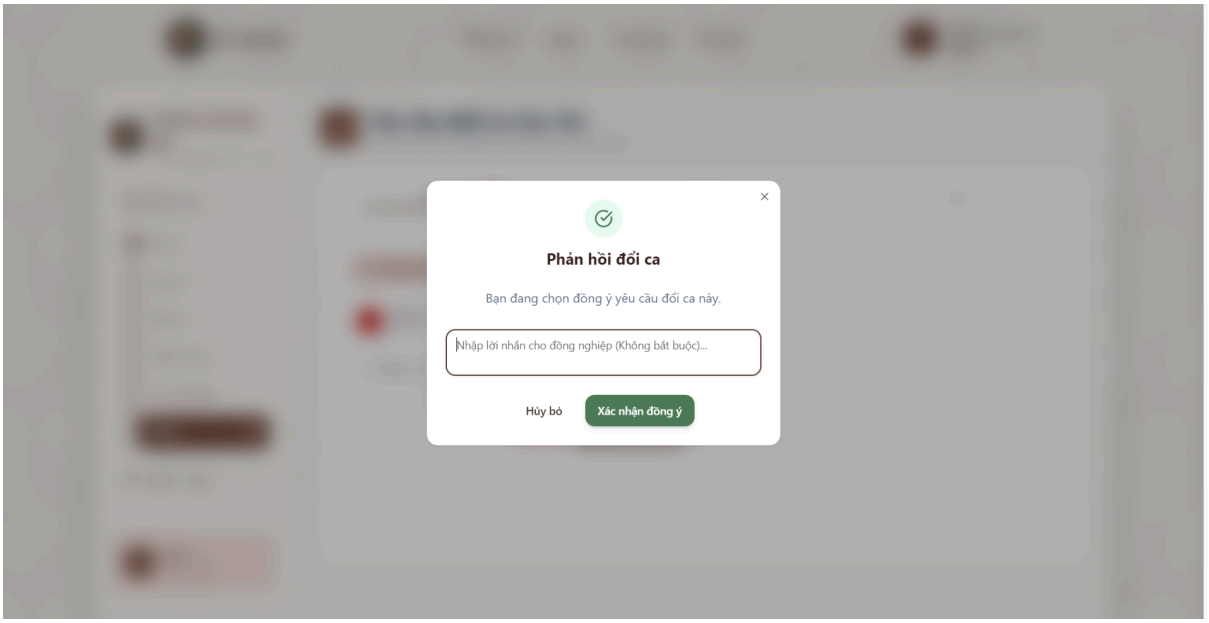

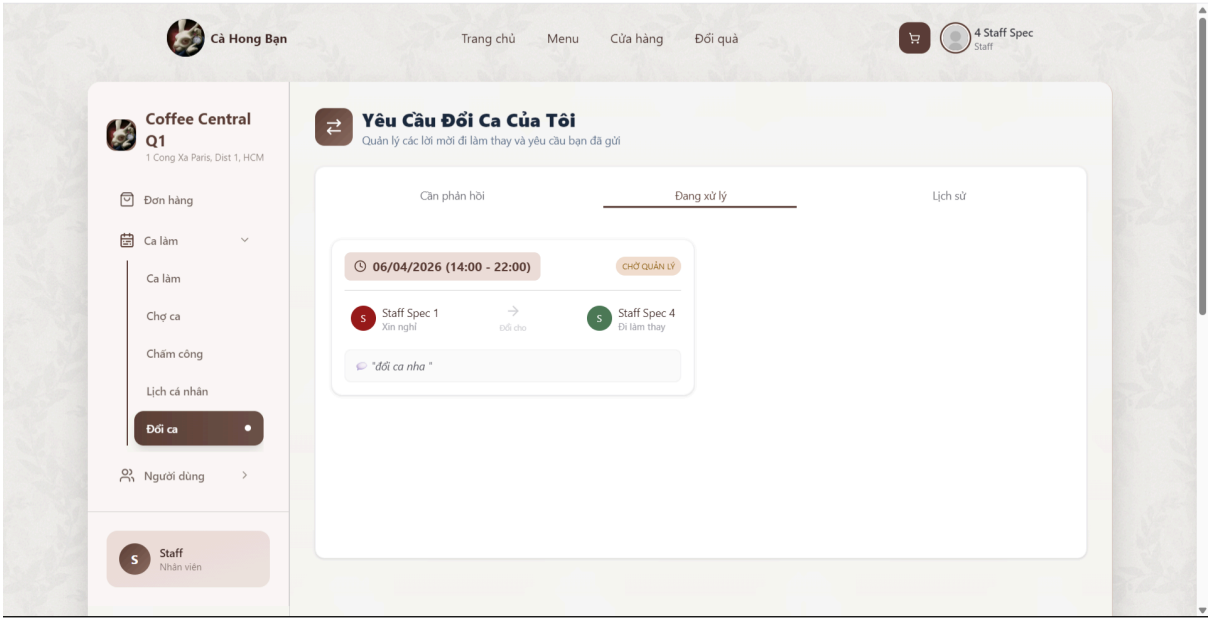

8.9 Responding to a Shift Swap Request (For Target Staff)

1. Go to Shift Requests or check system Notifications.
2. Open the pending swap request sent by your colleague.
3. Click Swap Shift (Đổi ca).
4. Review the shift details (Date, Start/End Time, Role).
5. Click Accept (Đồng ý) to take the shift or Decline (Từ chối) to reject the swap. (If accepted, the request status is forwarded to the Store Manager).

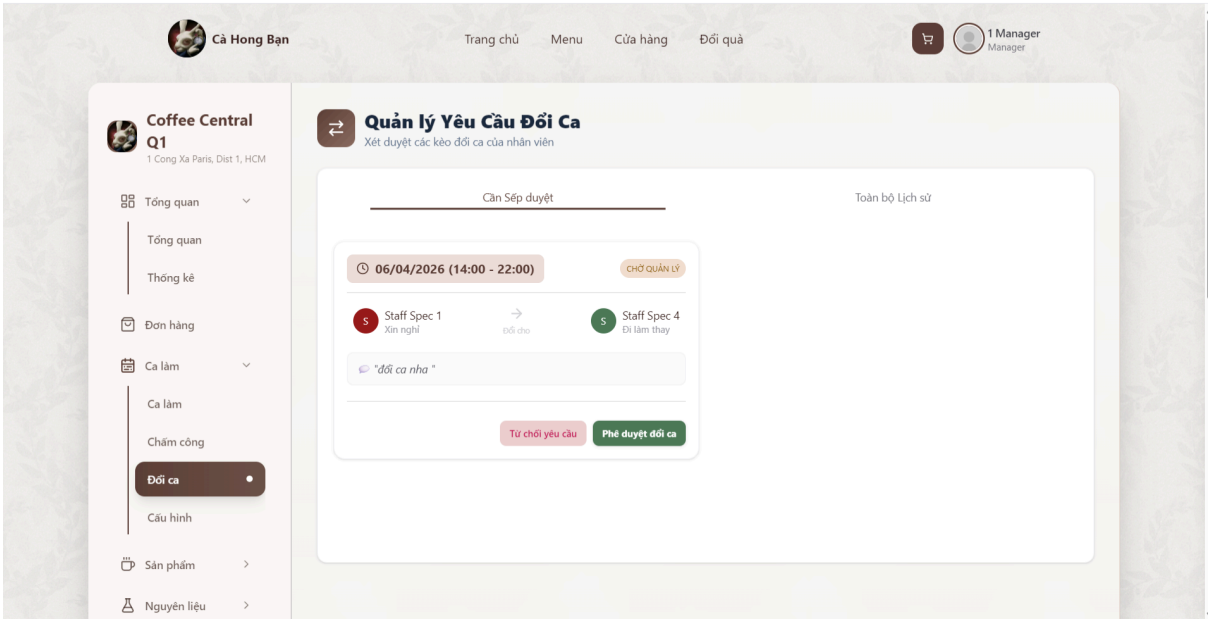

Approve swap request

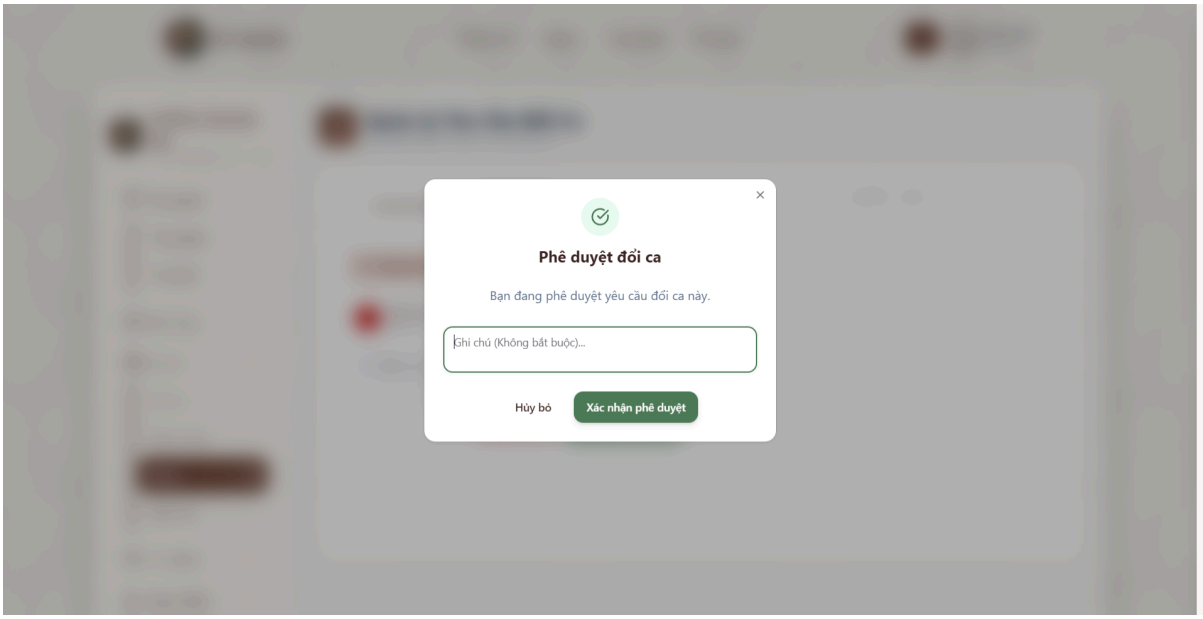

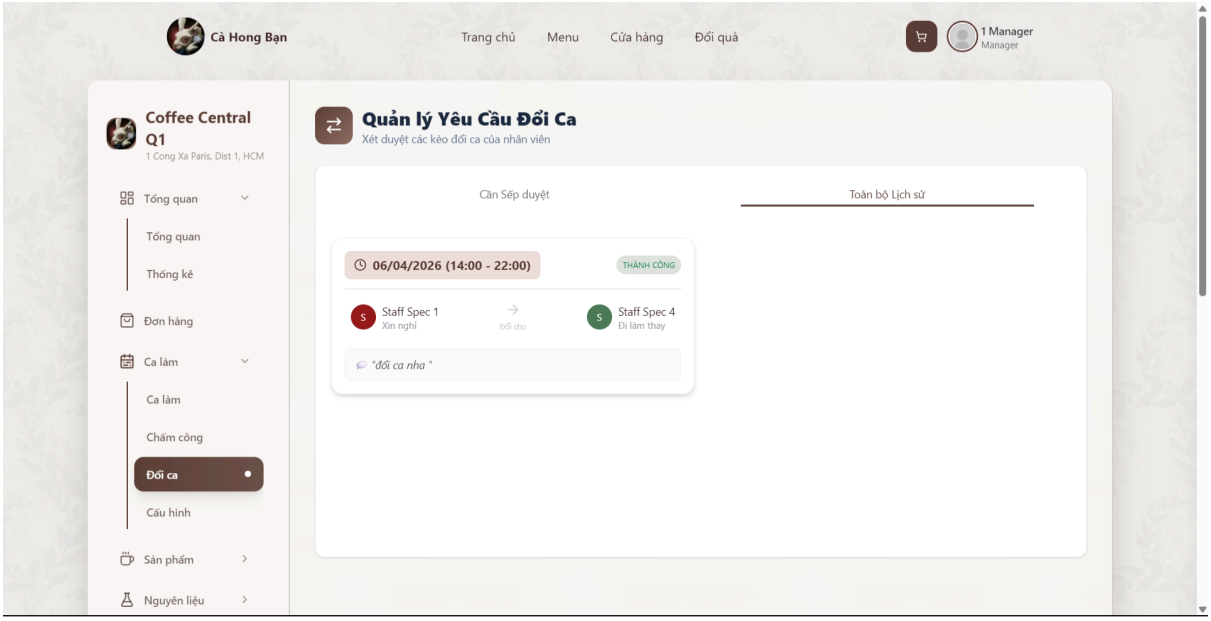

8.10 Approving/Rejecting Shift Swaps

1. Go to the Shift Requests or Notifications section.
2. Select the Shift Swaps tab to view requests made by employees to exchange shifts.
3. Review the details (Original Staff, Target Staff, Shift dates and total weekly hours impact).
4. Click Approve or Reject the request based on store rules.
5. If approved, the system updates the shift schedule automatically.

Manager approve swap response

8.11 Employee Check-In & Check-Out (Time & Attendance - For Staff)

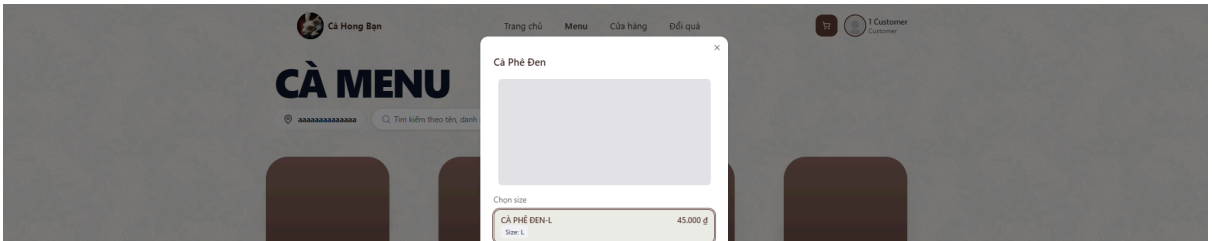

1. Staff log in to their dashboard or mobile view before working hours.
2. Locate the current active shift.
3. Click Check-In when starting work. (System logs the timestamp and validates against grace period rules).
4. Upon finishing the shift, log in again and click Check-Out.
5. The system automatically calculates total actual working hours and logs it for the payroll cycle.

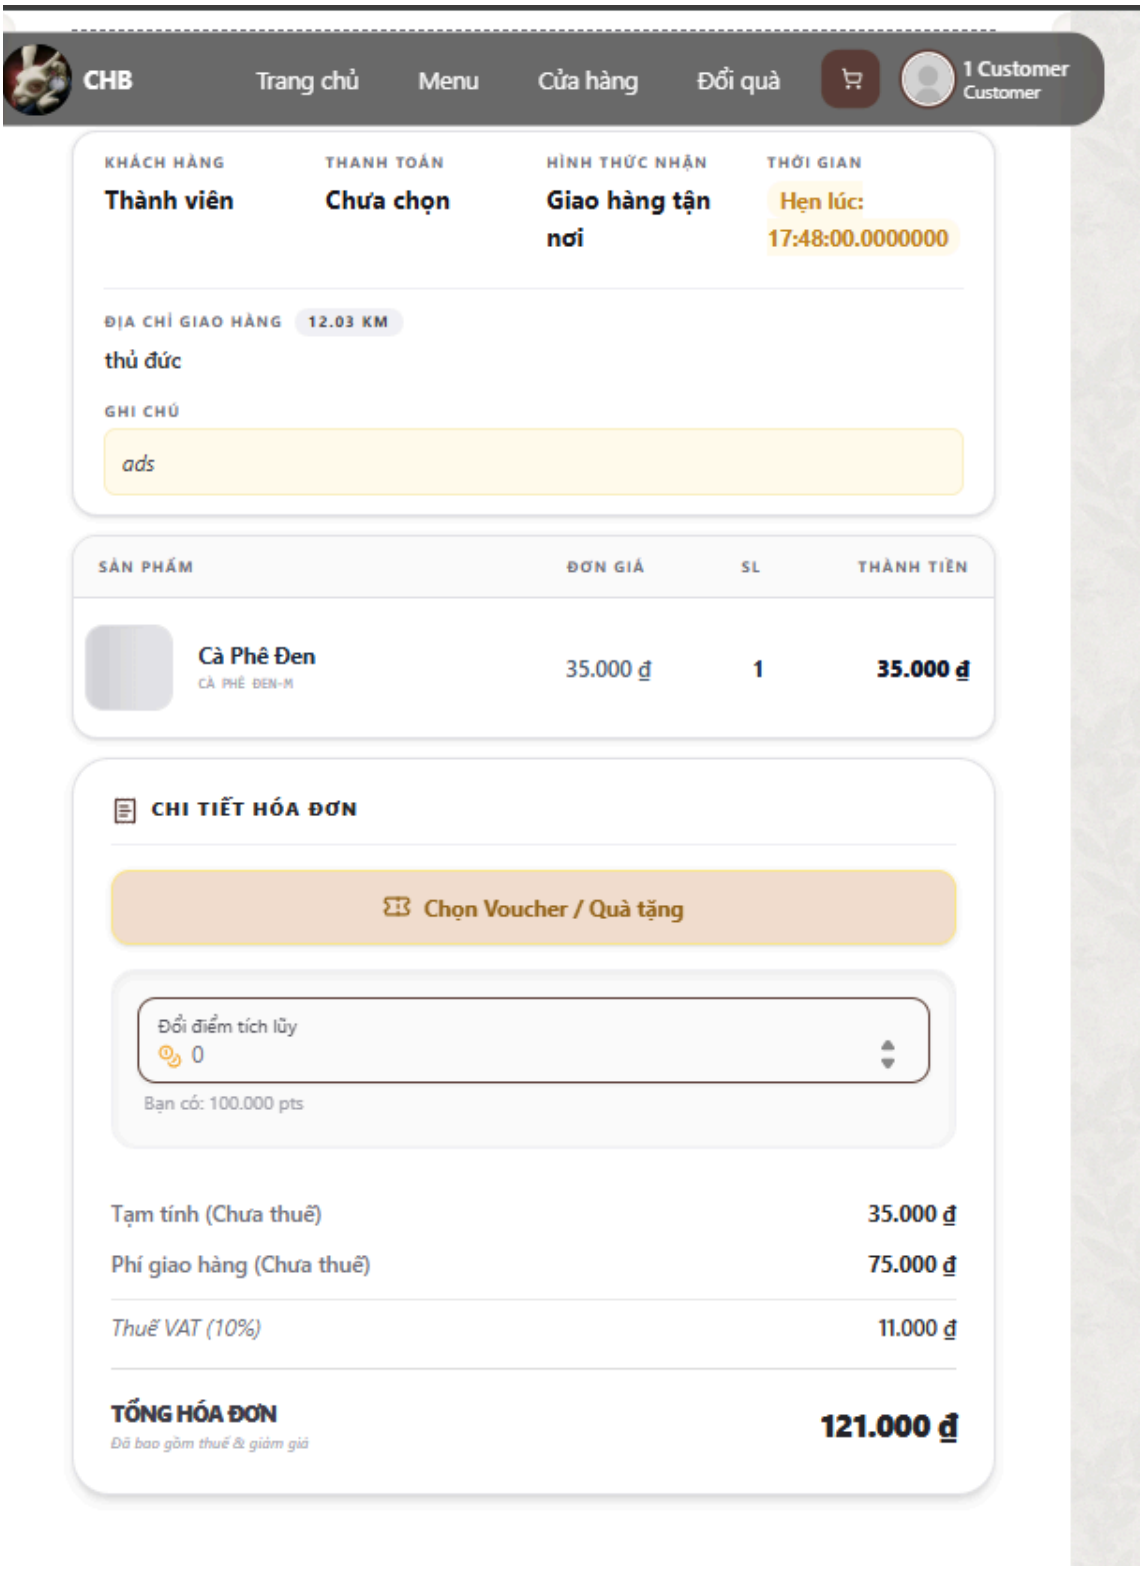

9. Order

9.1 Customer creates order

Create (Customer):

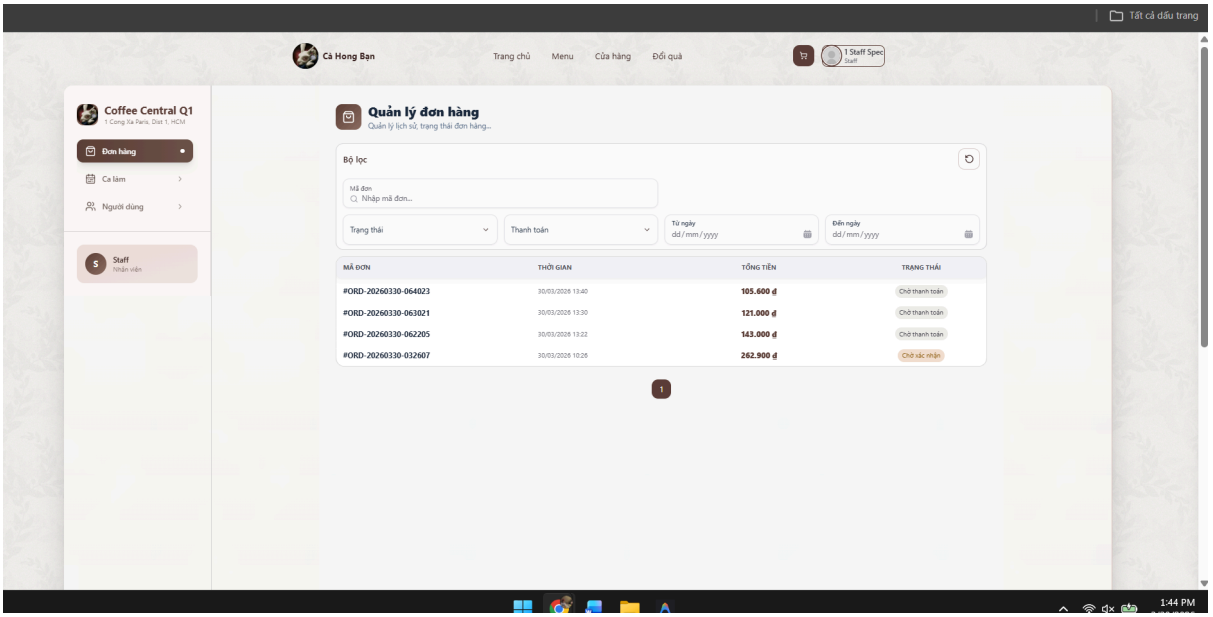

1. Login and go to the web and watch the menu.
2. Select store that customer want order from
3. Select the drinks and add them to carts.
4. Views details and payments.

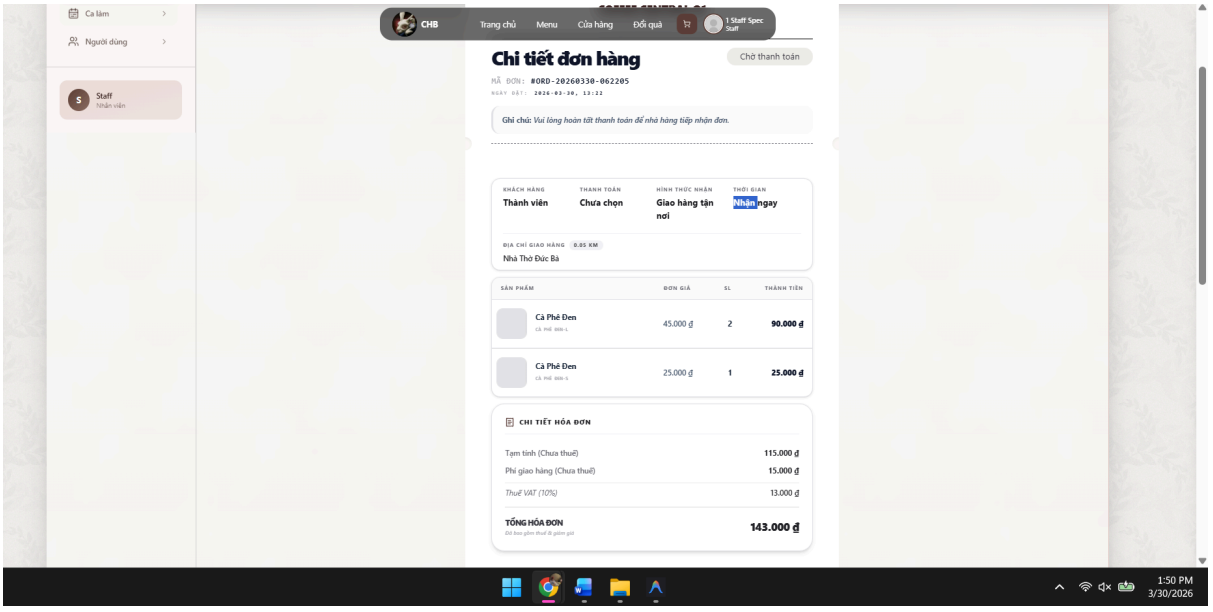

9.2 Staff operation orders

1. Views list order
2. Edit order

9.2 Canceling / Refunding Orders

1. Go to Orders > Manage Orders.
2. Search by Order ID or Customer Name.
3. Select the booking to cancel.
4. Process refund (cash or back to wallet).

- [Hình 9.4: Refund Ticket Form]

10. Payment & Points Module

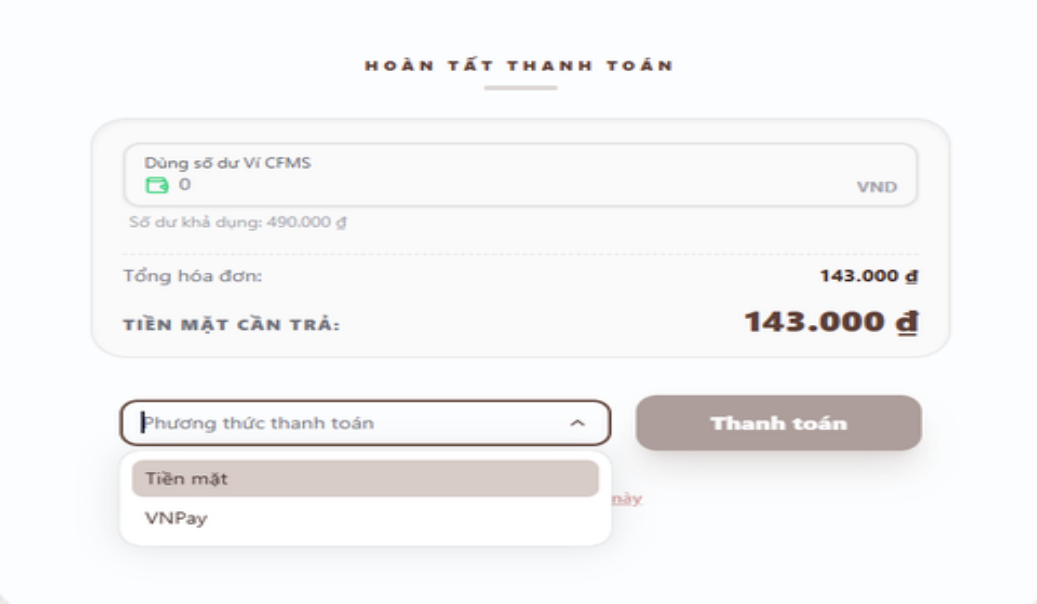

10.1 Supported Payment Methods (Cash, Internal Wallets, Payment Gateway)

Cash – for counter bookings.

Payment Gateway – supported via linked VNPay.

Internal Wallets

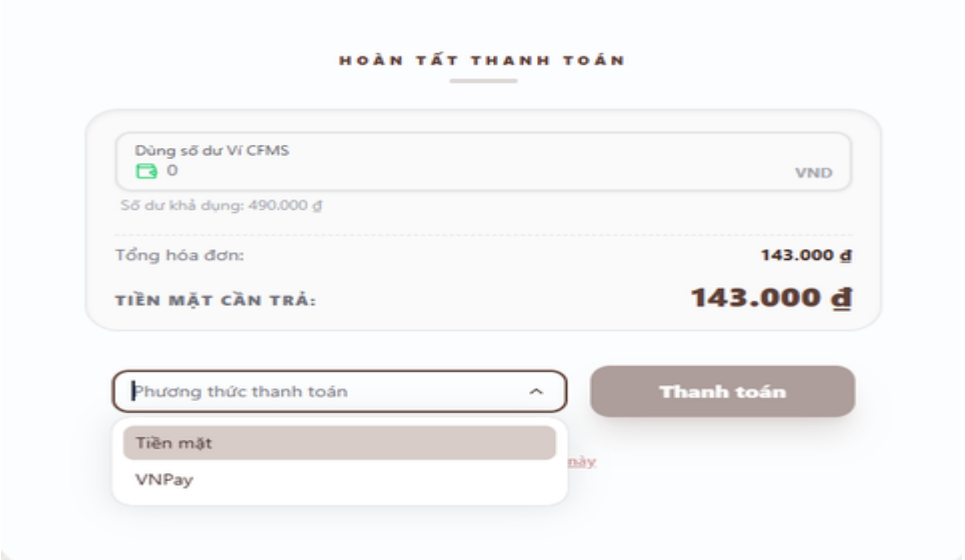

[Hình 10.1: Payment Options Screen]

10.2 Applying Loyalty Points

Customers earn points per transaction.

During checkout:

1. Select Use Points option.
2. Enter points to redeem.
3. Discount is applied to total payment.

[Hình 10.2: Apply Loyalty Points at Checkout]

10.3 Payment Confirmation Flow

1. The customer selects the payment method.
2. System redirects to secure payment gateway (for online payments).
3. After confirmation, an order is issued.
4. Payment receipt is sent via email.

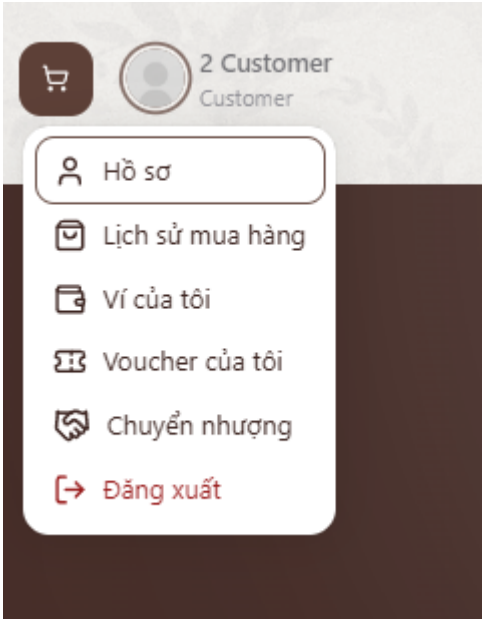

[Hình 10.3: Payment Confirmation Page]

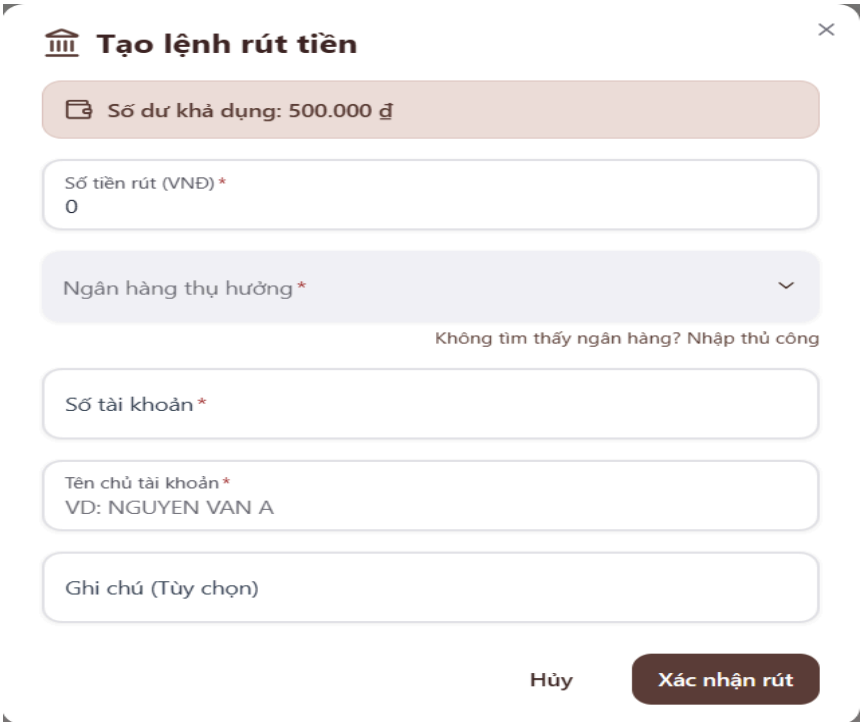

10.4 Refund money from wallet to customer bank

1. Choose My Wallet -> withdraw history
2. Create withdraw request

[Hình 10.4.1: option menu]

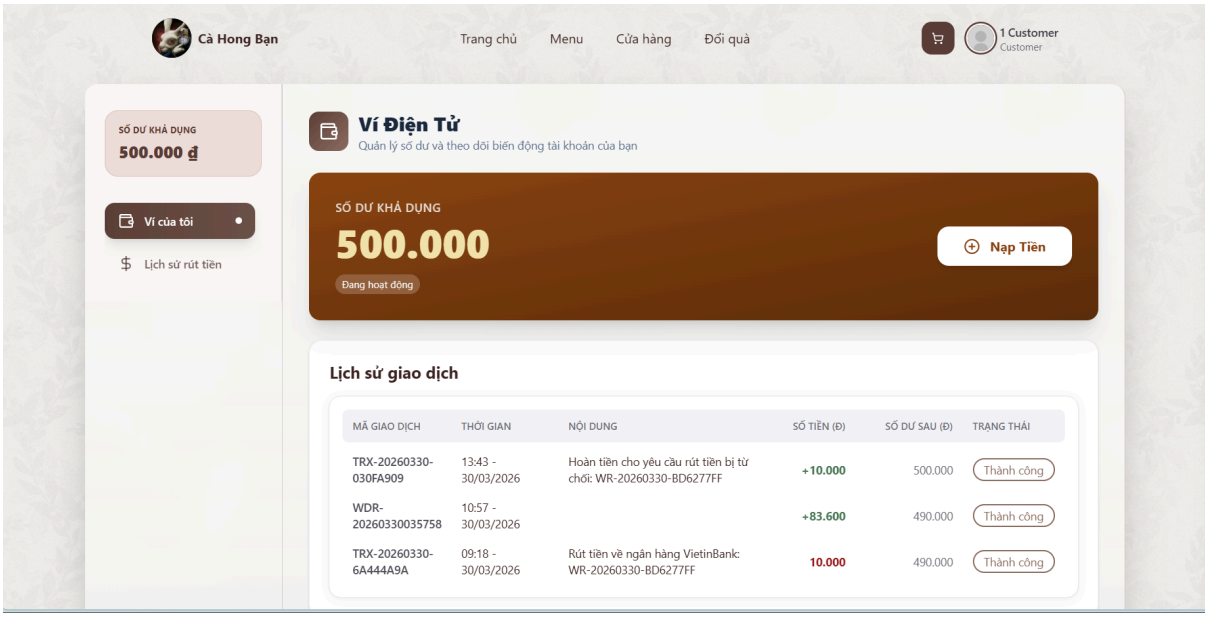

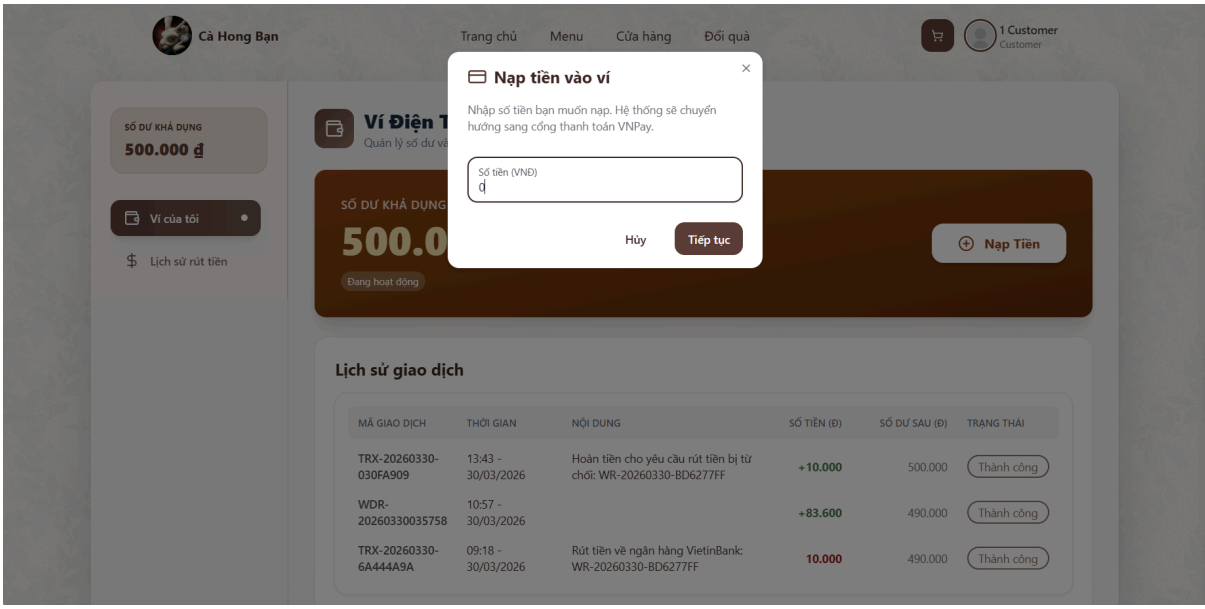

[Hình 10.4.2: Create withdraw request screen]

10.5 Add balance to customer wallet

1. Choose My Wallet
2. Choose top up the wallet

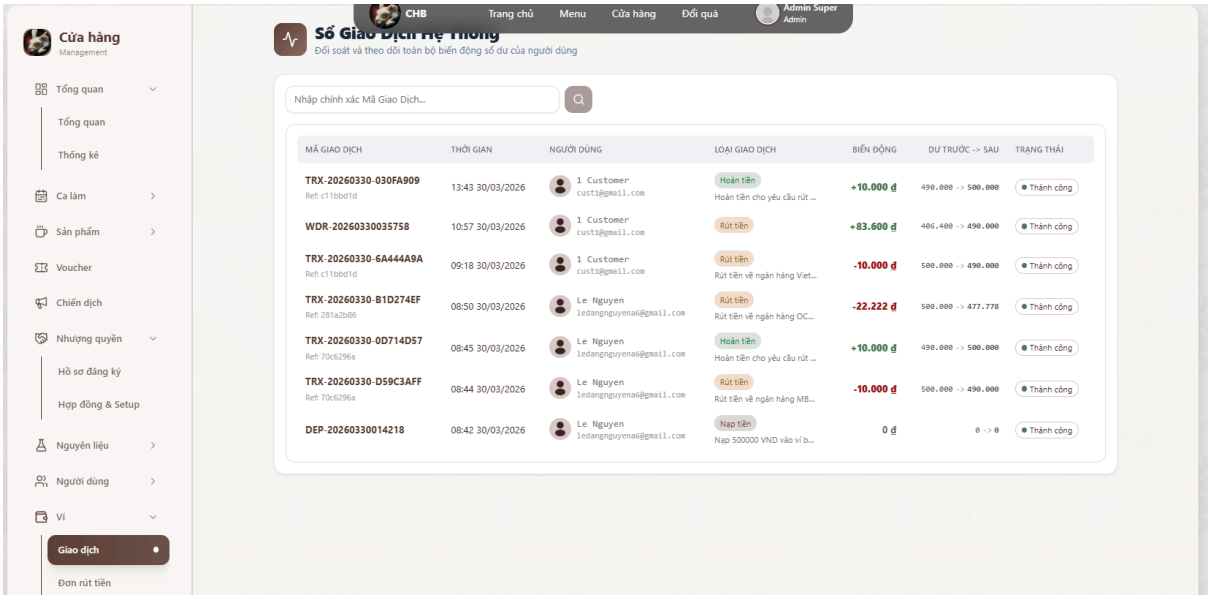

10.6 Wallet Management

1. **Manage contracts:** Create, view, update, and delete supplier contracts.
2. **Financial tracking:** Monitor all income and expenses including orders, payments, and supplier costs.
3. **Transaction history:** View detailed records of all financial transactions.

4. **Withdrawal requests:**
5. View withdrawal requests submitted by staff or franchise branches
6. Approve or reject withdrawal requests
7. Track withdrawal status (pending, approved, rejected)
8. **Search & filter:** Find transactions or contracts by date, amount, or status.

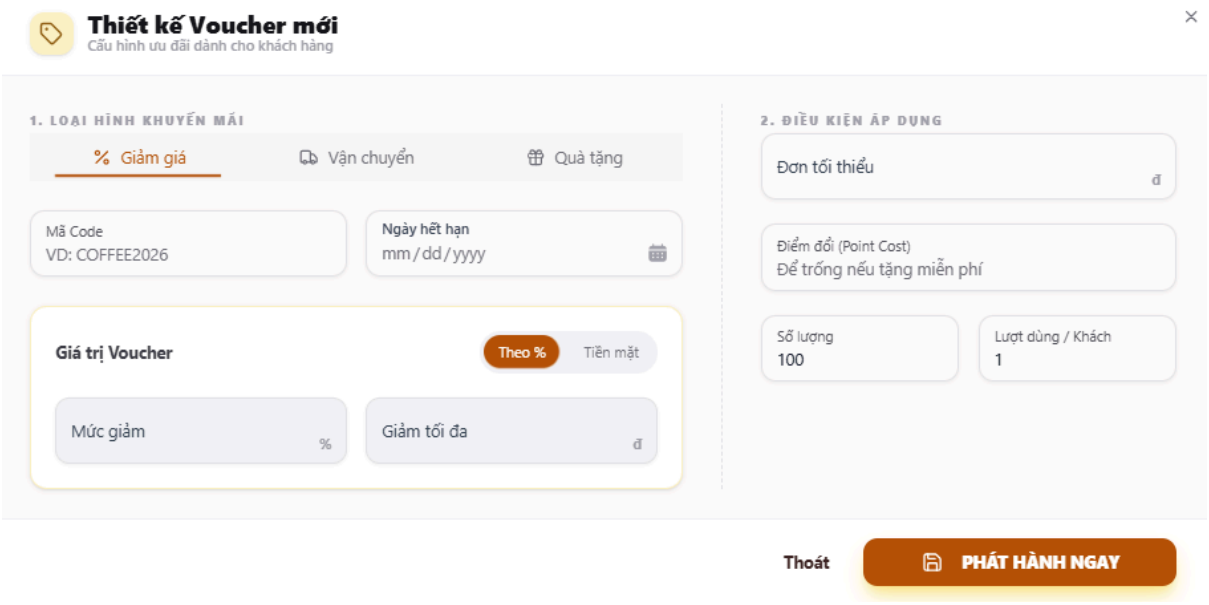

11. Promotion Module

11.1 Creating Discount Codes

1. Navigate to Promotions > Add Voucher.
2. Choose type:
    - Delivery
    - Discount order
    - Gift
3. Choose discount type:
    - Percentage Discount (e.g., 20% off)
    - Fixed Amount Discount (e.g., -50,000₫)
3. Define:
    - Promo Code (option)
    - Validity Period
    - Applicable Product…
4. Save promotion.

[Hình 11.1: Add Promotion Form]

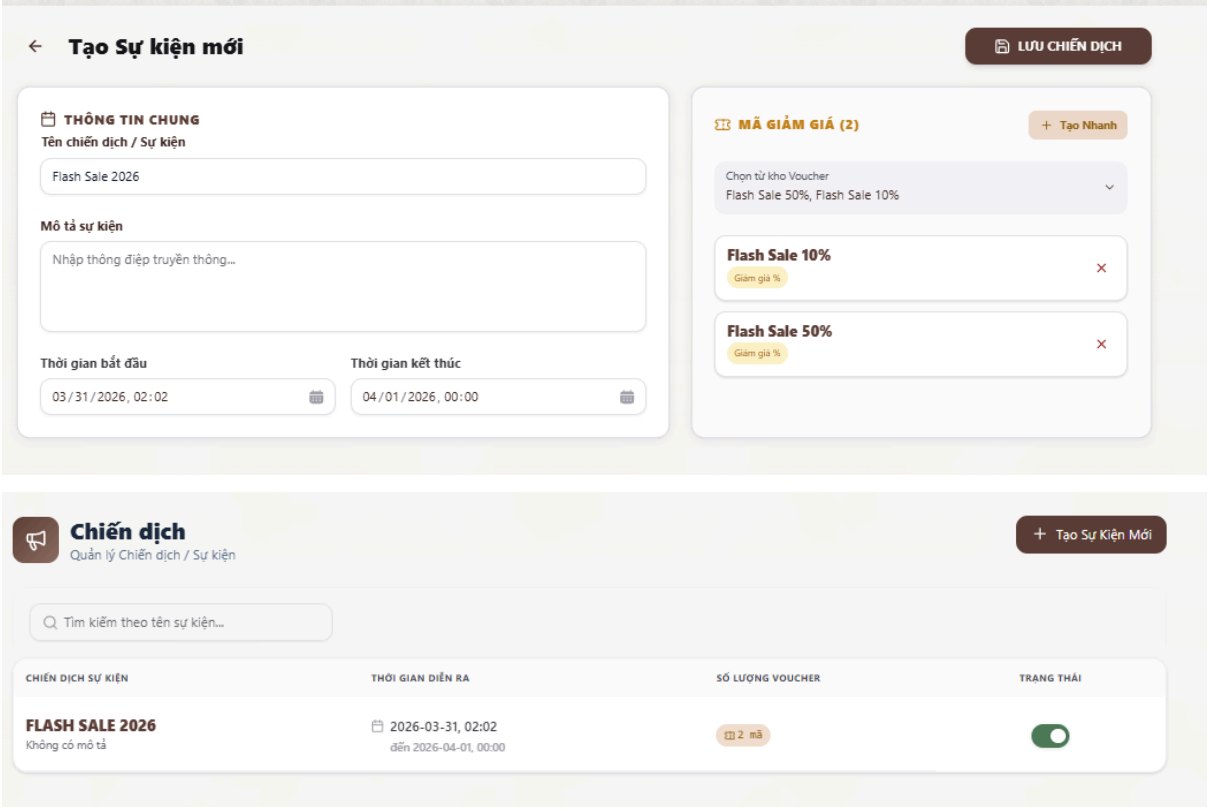

11.2 Creating Campaign (Flash Sale)

1. Navigate to Campaign -> Add Voucher.

2. Save Campaign.

[Hình 11.2: Add Promotion Form]

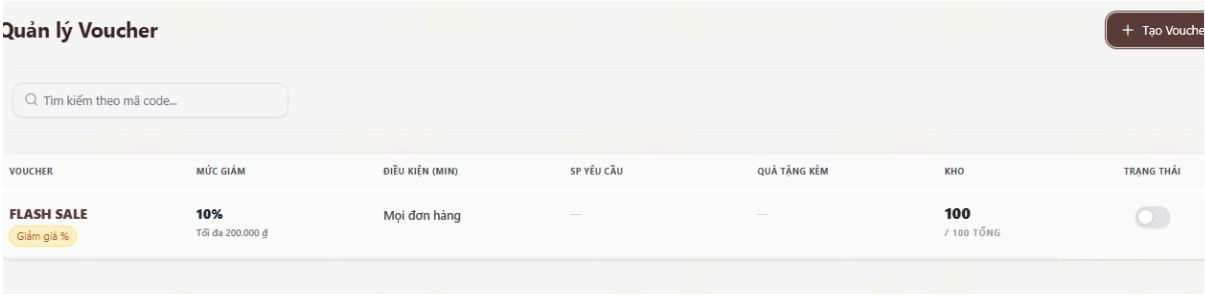

11.3 Managing Promotions (Weekend Deals, Student Discounts)

View active, upcoming, and expired promotions.

Edit or disable promotions anytime.

[Hình 11.3: Promotions Dashboard]

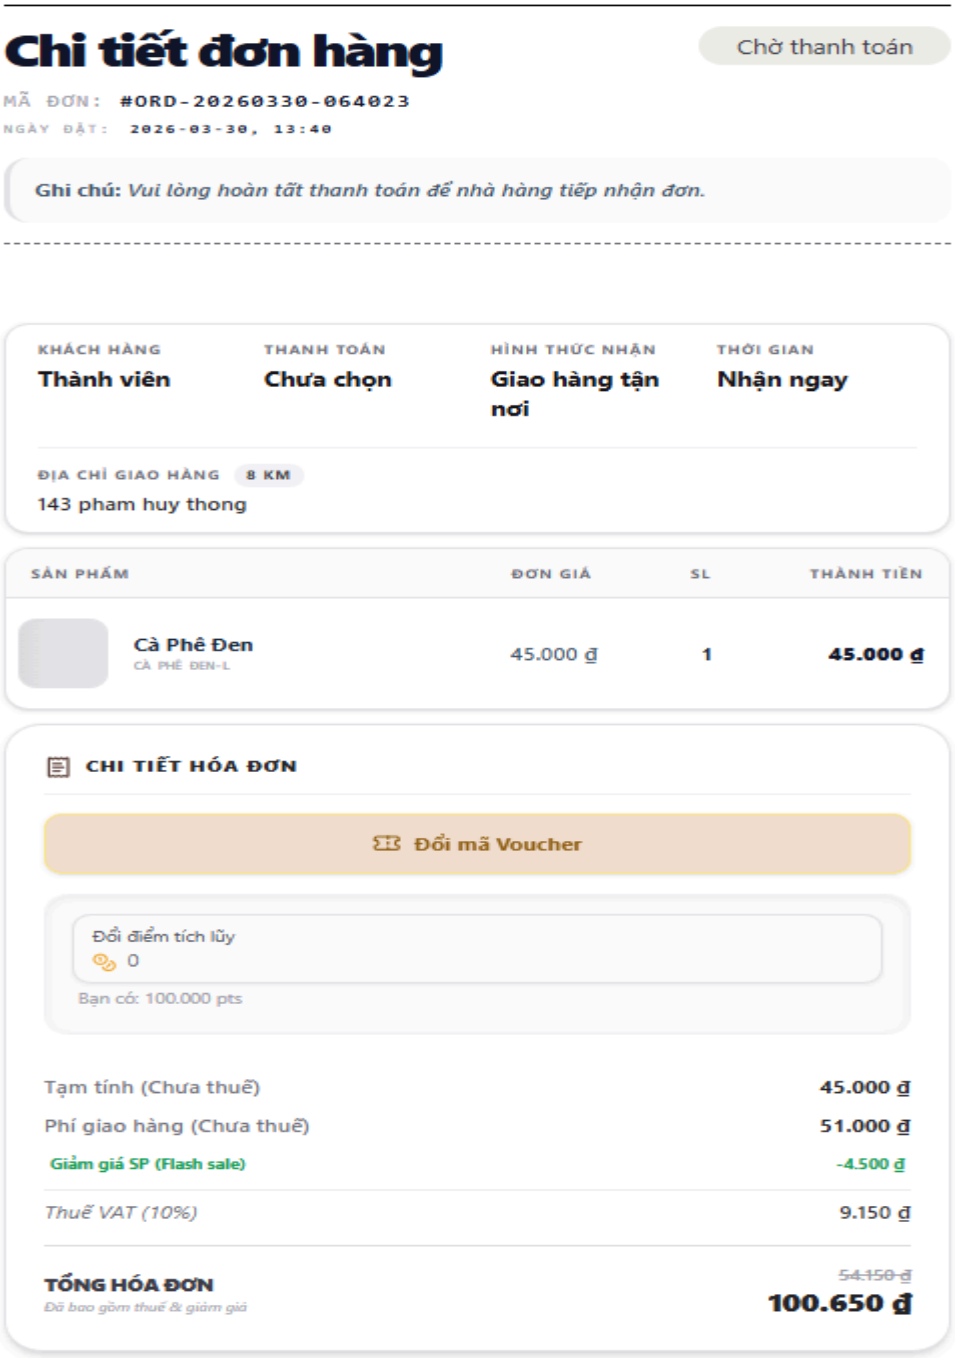

11.4 Applying Promotions to Orders

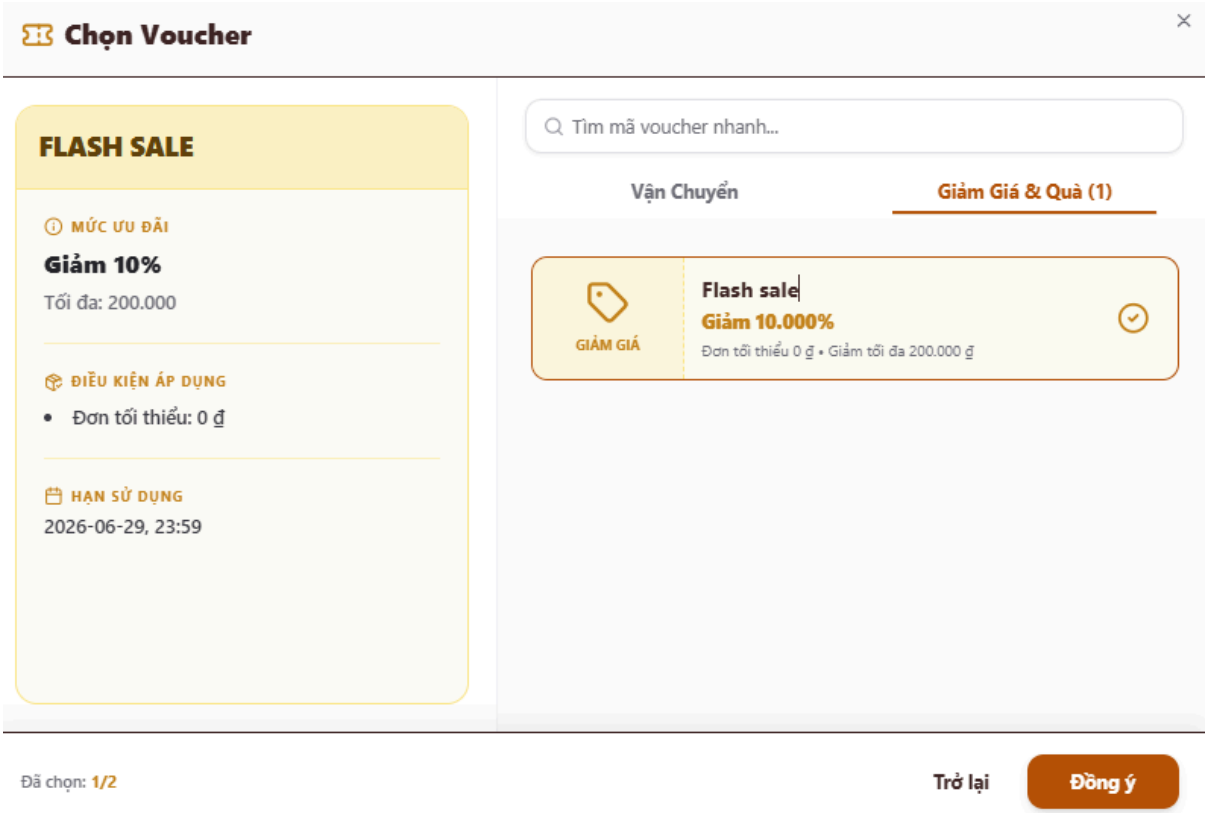

Customers enter promo code at checkout.

Discount automatically applies to order total.

Staff can manually apply for promotions at the counter.

[Hình 11.4: Apply Promo Code in Checkout]

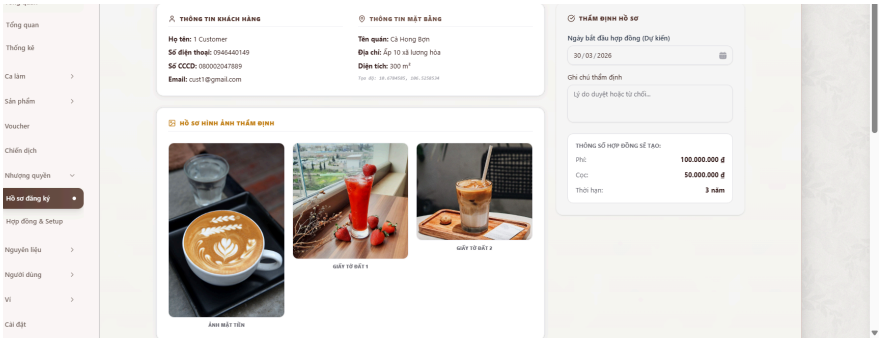

12. Franchise Module

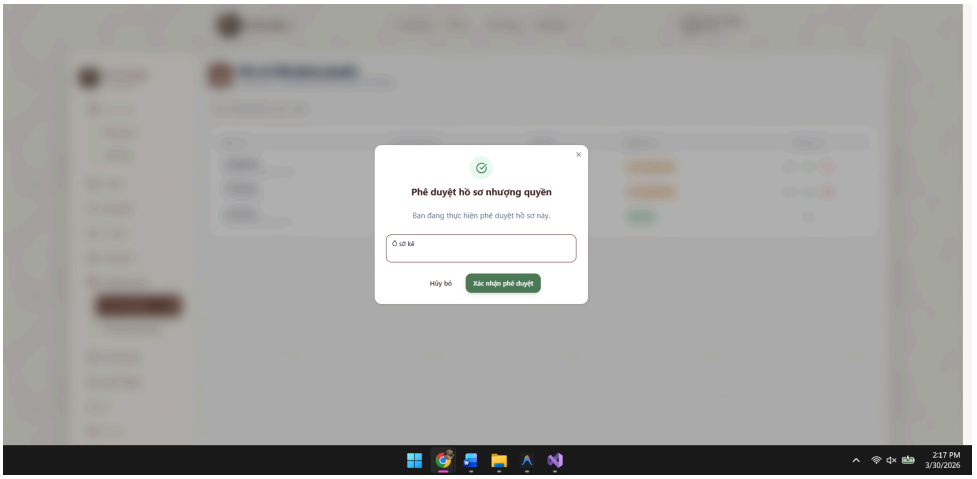

12.1 Adding request (customer)

[Hình 12.1: Add Franchise Form]

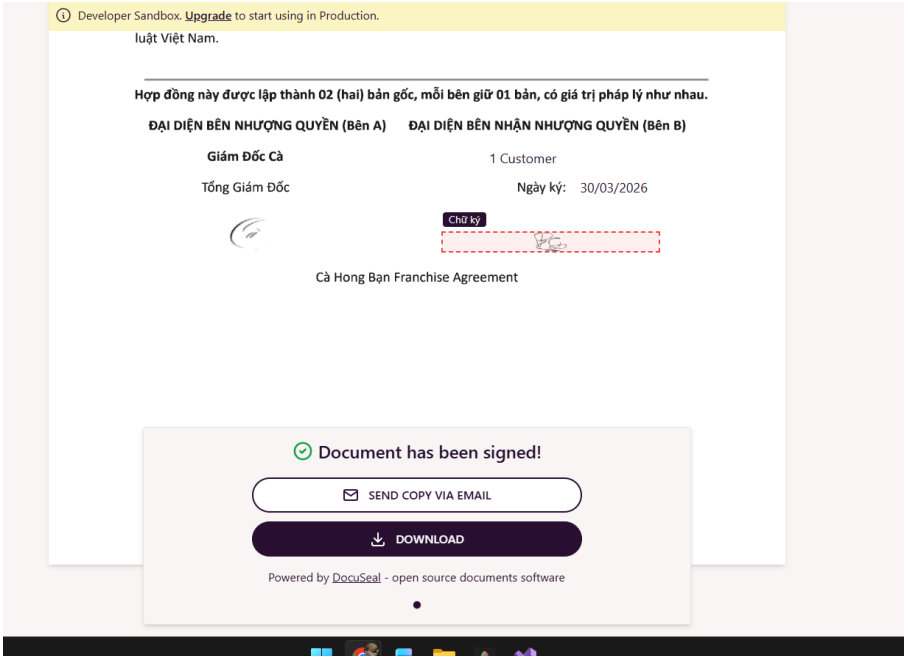

1. customer create Application
2. Admin approve application
3. customer sign
4. finished

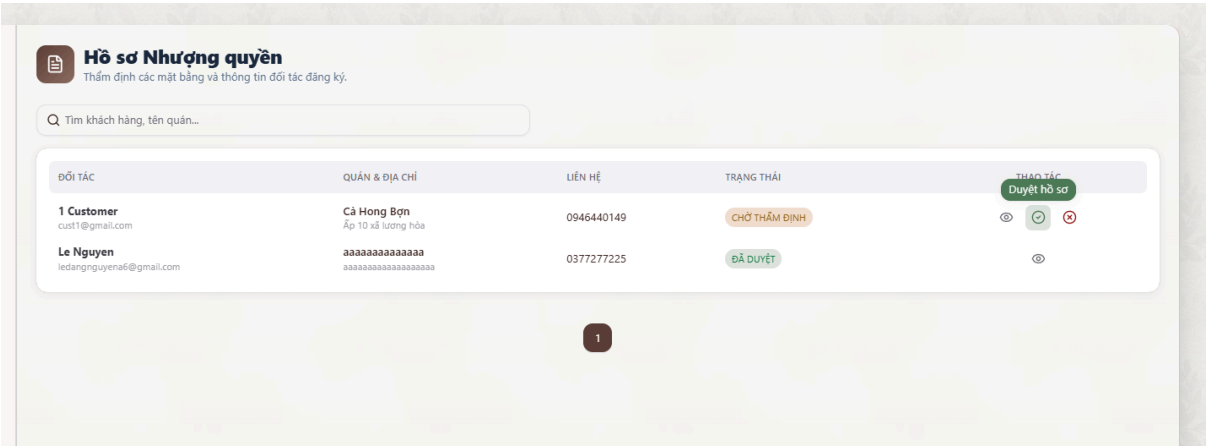

[Hình 12.2:Admin approve]

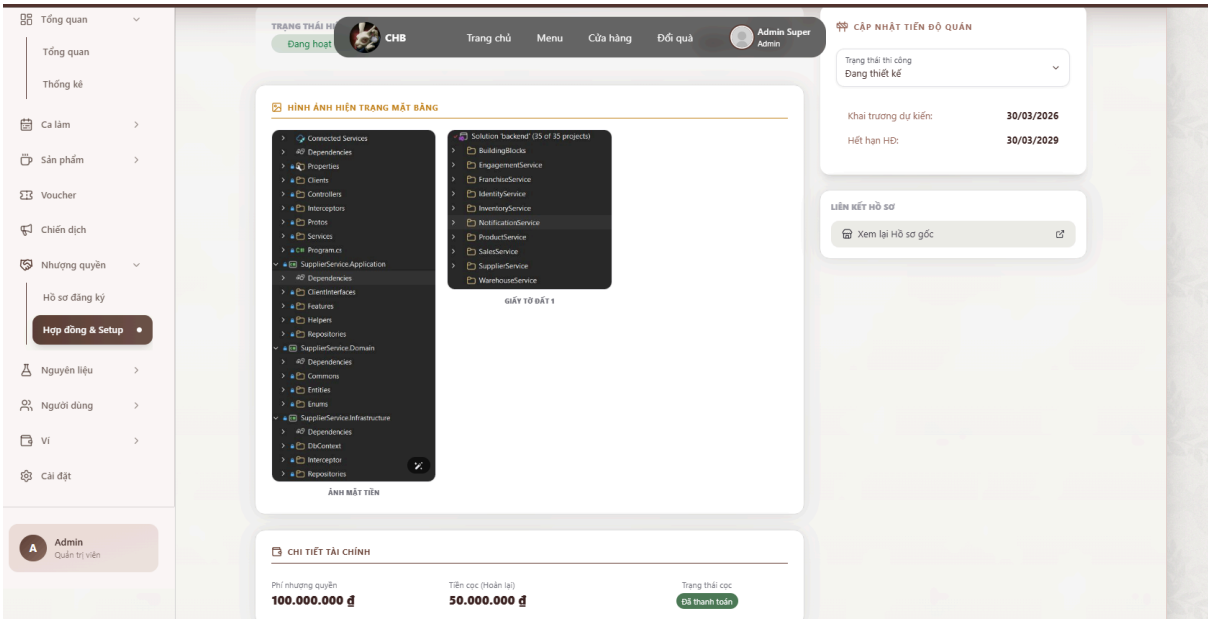

[Hình 12.3: Sign]]

[Hình 12.4: View all application]

12.3 Contracts & Finance

13. Performing Common Tasks

13.1 How to Book an Order Online

Login to your account.

Choose a store at store or menu item.

Choose a drink with desired size and quantity.

Add to cart.

Go to the shop cart to choose and confirm drinks with size and quantity.

Then choose the delivery order type.

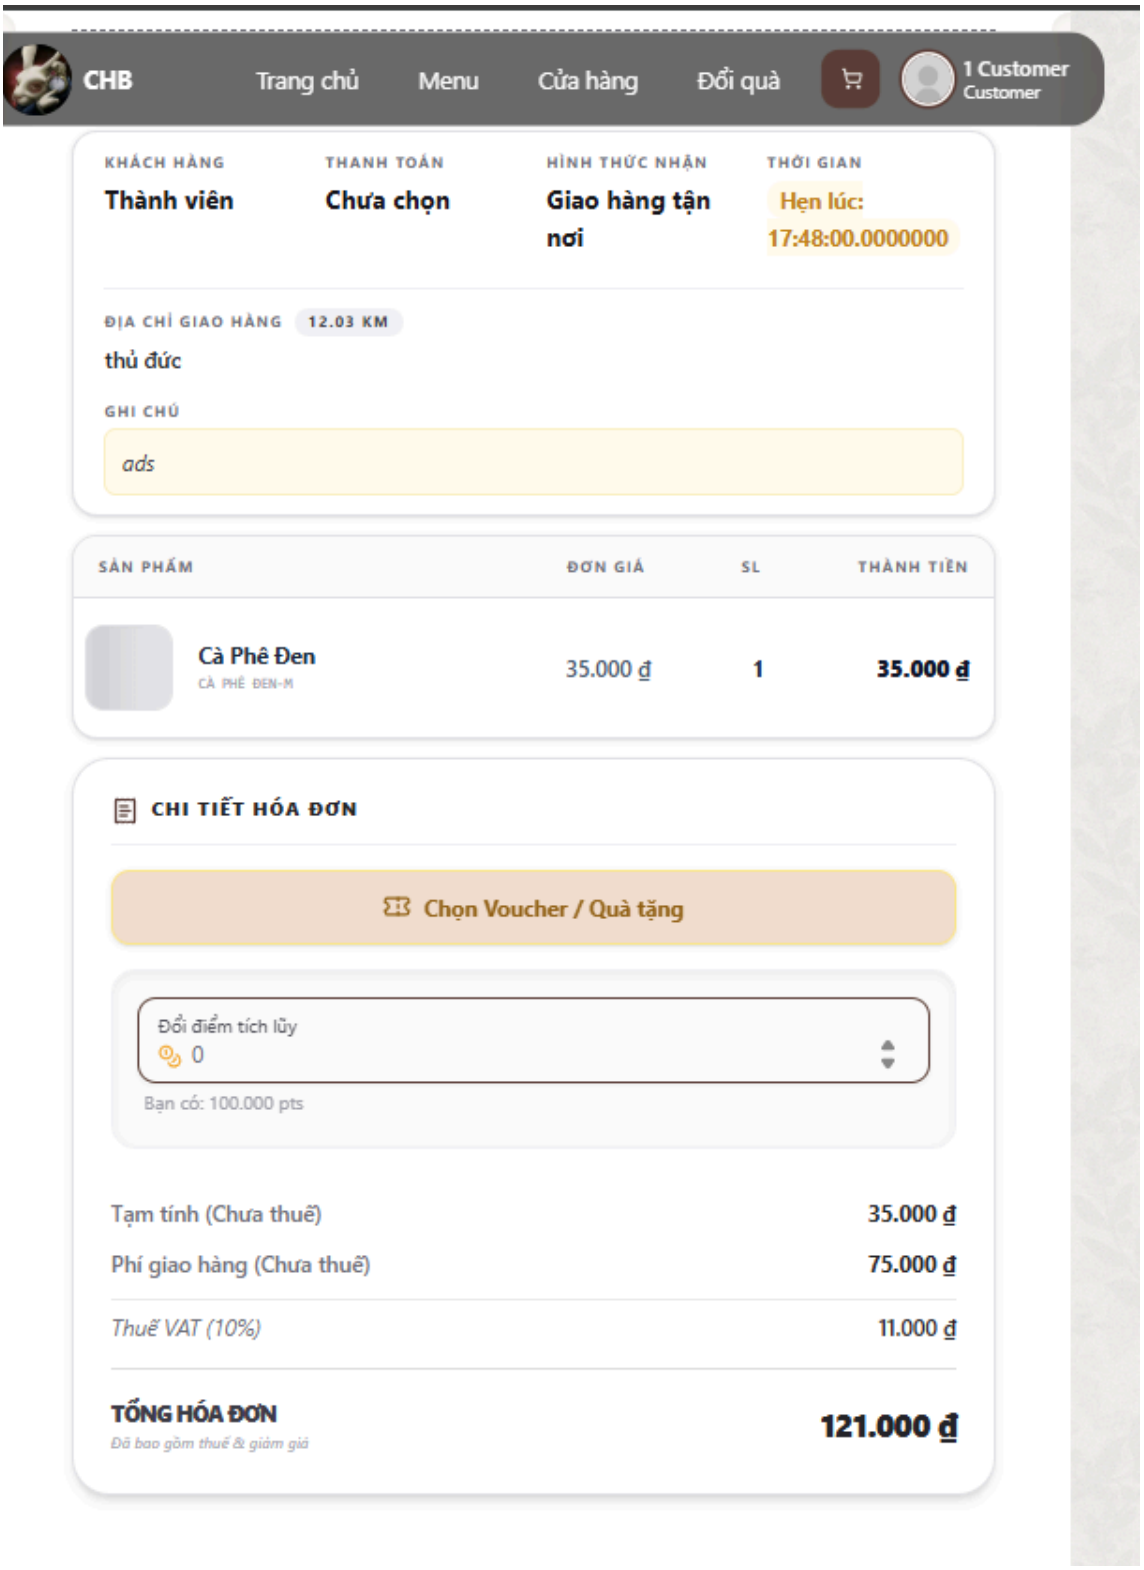

The customer must input address and optional pick up time and notes.

Choose vouchers or use points to discount.

Choose VNPay payment method and execute payment.

Wait for staff to confirm the order.

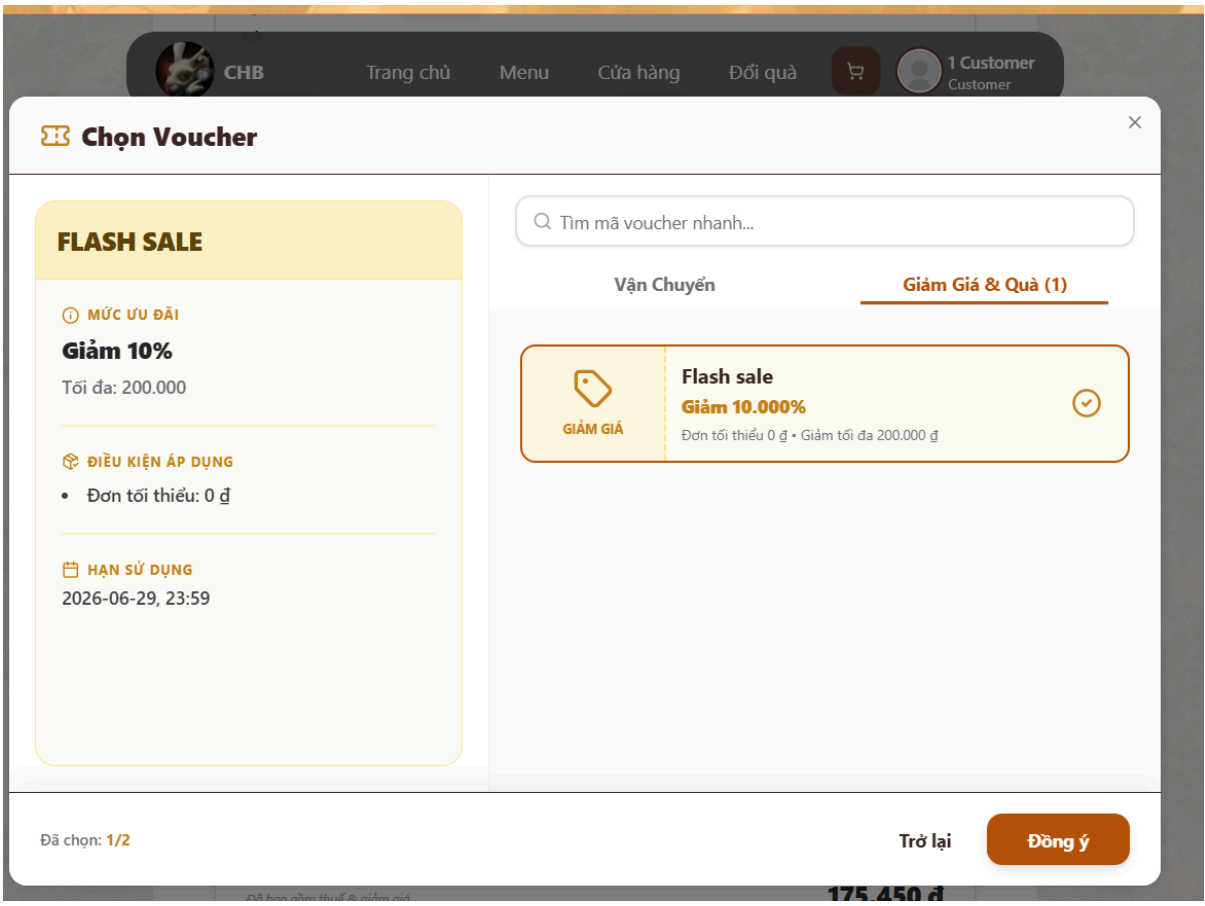

- [Hình 13.1: Online Booking Flow Summary]

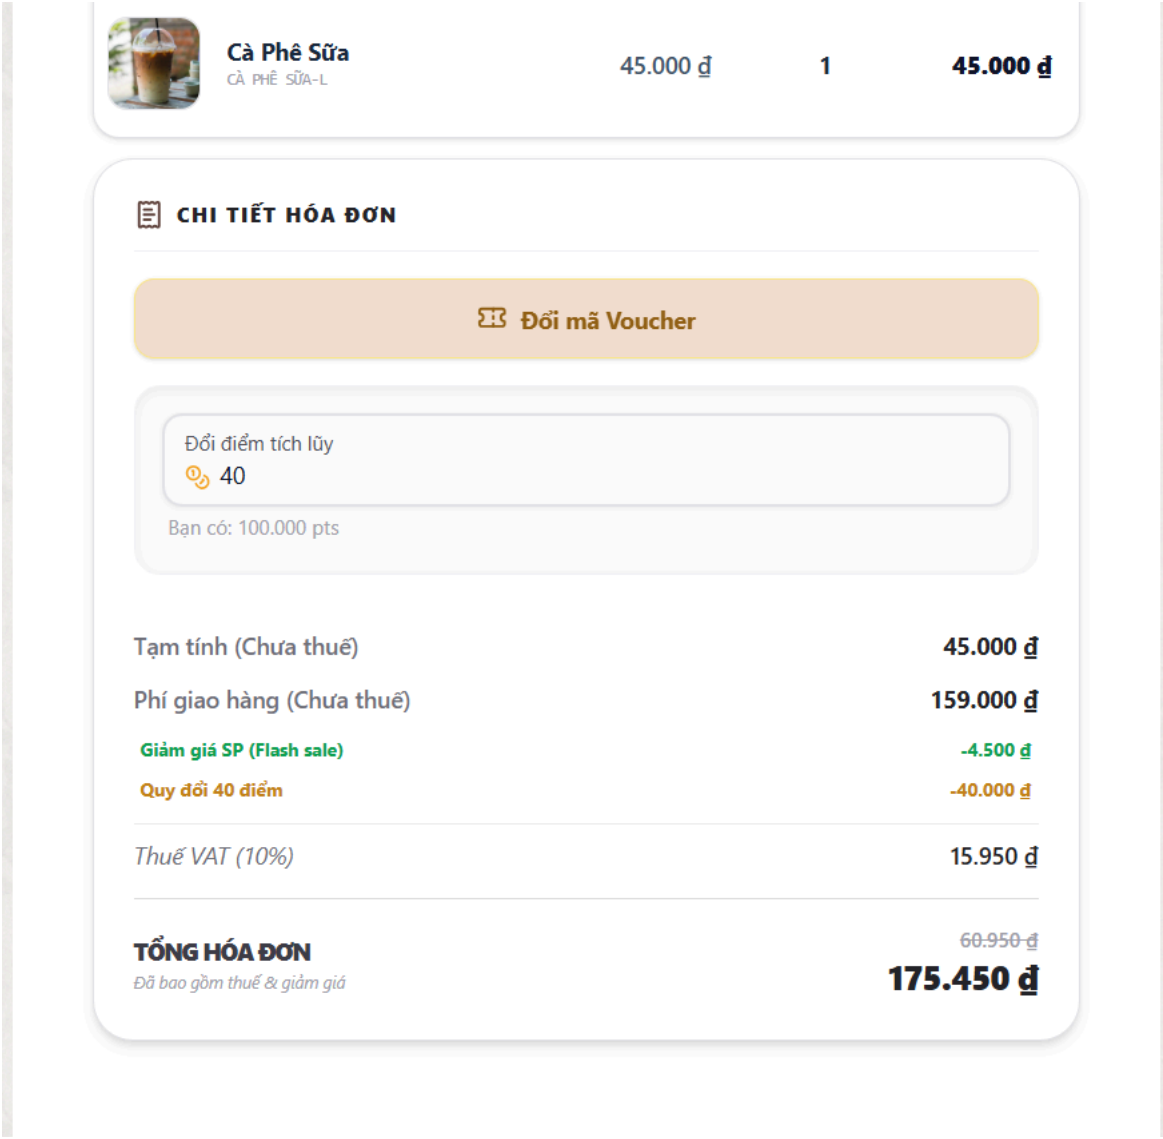

13.2 Applying Voucher or Use Points to discount

- Go to Exchange Gìfts to get vouchers if they exist.
- At the Order Detail screen, choose vouchers and points to discount if the customer has.

[Hình 13.2: Apply Promotion Field]

14. Advanced Features

14.1 Transfer a franchise

The customer inputs required documents about the new franchise.
The admin approves workflow.
Track transfer status.
Sign the contract through DecuSeal.

14.2 Advanced Search & Filtering

Filter by date, status, category.

Pagination + sorting.

Query optimization.

14.3 Loyalty Tier System

Discount rate.

Points earning rate.

Point value.

14.4 Role-Based Access Control

Each role has its own permissions.

Middleware checks permissions before calling APIs.

It's easy to add new roles.

14.5 Real-time Notification System

Triggers when: low stock, …

Email : OTP, order status, contract,...

15. Common Issues & Errors & FAQs

15.1 Common Issues & Solutions

Issue	Cause	Solution
Cannot login	Incorrect password	Use Forgot Password feature
Payment failed	Network or gateway issue	Retry or switch payment method
Network error	internal server issue	Refresh page

15.2 Error Message Reference

Code	Message	Description
ERR 401	Unauthorized	Login required
ERR 503	Payment Gateway Timeout	External provider issue

15.3 Frequently Asked Questions

Q: Can I cancel my order?

A: Yes, if the order hasn't been prepared yet.

Q: Can I earn points with every purchase?

A: Yes, each purchase counts towards your reward points.

Q: Can I use multiple promotional codes at the same time?

A: Yes, but specifically, only one shipping discount code and one order discount or gift code can be applied per order.

16. Maintenance & Updates

16.1 Security & Data Protection

Use HTTPS for all communication.

Passwords are stored using hashing (bcrypt).
